Zhejiang University, Bachelor of Industrial Design
2009-2013

Aalto University, Finland, Master of HCI&Design
2013-2015

Working Experience

| **International Logistics, Bytedance** 2022.05-now

Design focus encompasses C-end, supply chain, and operations, with the goal of delivering seamless logistics experiences across diverse scenarios.

| **Cainiao Station, Alibaba** 2018.10-2022.05

Design for enhancing Cainiao Station management and optimizing operational efficiency. Gain a comprehensive understanding of the industrial Internet, and actively explore the integration of online and offline experiences.

| **ARK Innovation** 2016.09-2018.10

Develop the capacity to swiftly comprehend various industries, identify issues, and deliver top-notch digital solutions while catering to diverse customer needs.

| **Pilotfish GmbH (Munich)** 2015.04 - 2016.06

Started my carrier in a design agency in an international working environment.

Awards

- 2022, 2023 IXDC lecturer
- UXPA annual excellent paper & participated in HCII
- Guanghua Dragon Award · Top Ten Outstanding Professionals in China's service design industry.
- Bytedance · E-commerce Design - Annual Best Design
- Campus Aisa lecturer (Zhejiang University x Alibaba)
- Cainiao Group Awards x 3
- Alibaba Design WeChat Official Account author
- Multiple national invention patents

Who am I

Rich B-end Experience

- By revamping the design of Bytedance Supply Chain Platform and Cainiao Operator Platform, both resulted significant increase in CSAT, and consolidated various components to enhance the overall user experience.

Keen perception of design opportunities

- During the initial development phase of the Supply Chain Platform, I conducted regular user research reports and identify the high-priority needs, therefore drive iterative improvements in product functionality and user experience.
- Designed a parcel container for improving delivery efficiency and achieved a practical improvement of over 20%. This tool has been successfully implemented and adopted by tens of thousands of Cainiao Station nationwide.

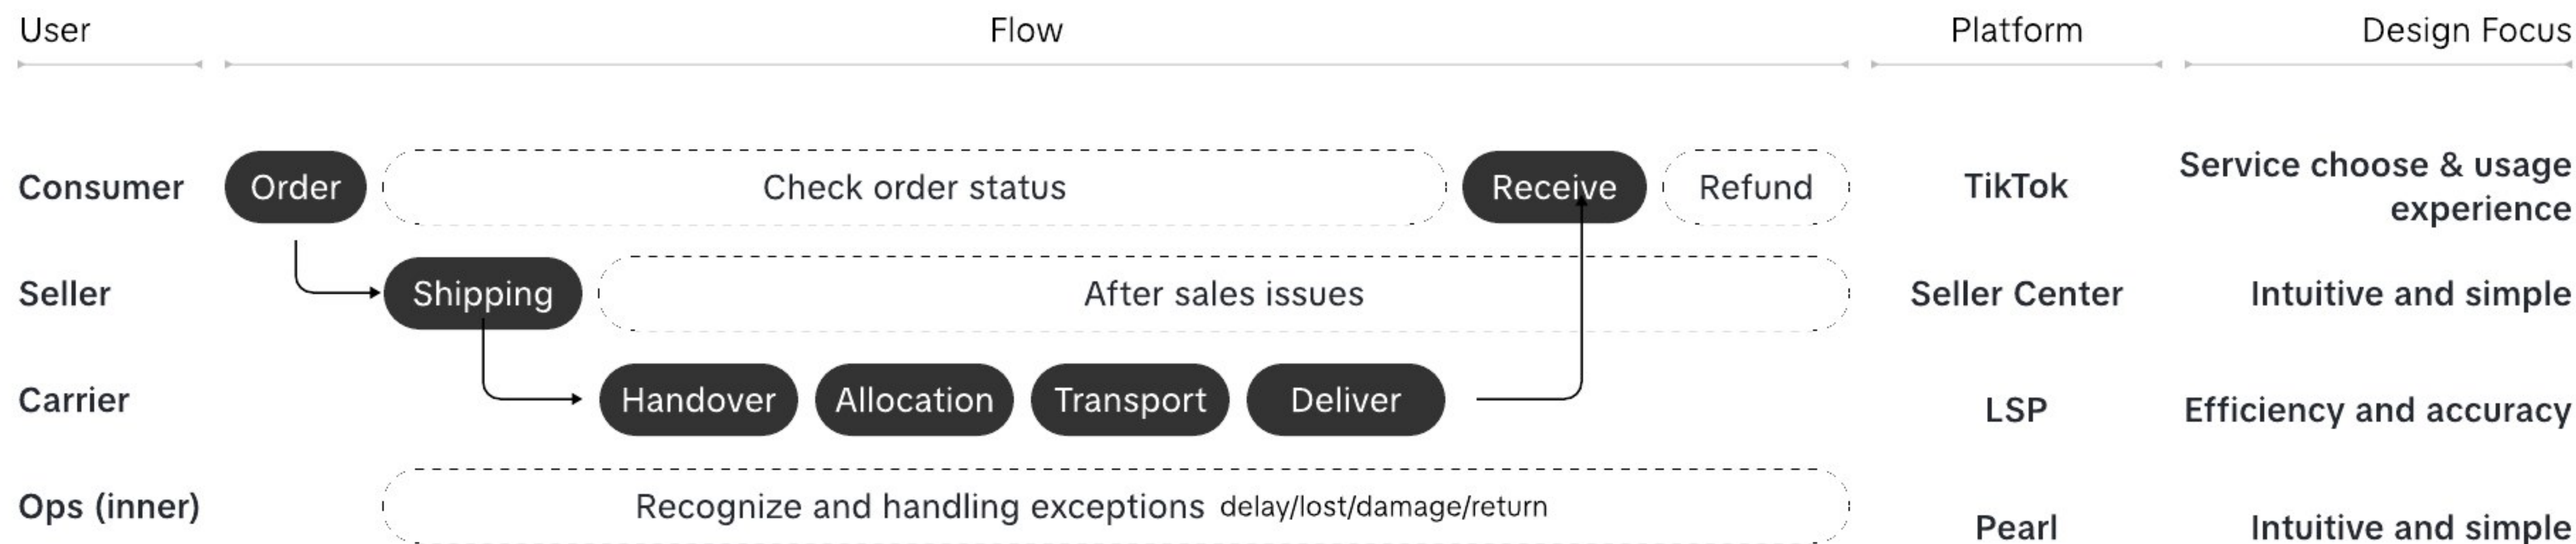

Design driven

- As the founder of the Cainiao Experience Evaluation Platform, I have held roles in operations, product management and design. Also successfully promoted its adoption across the entire company.
- By identifying the challenges faced in international scenarios of understanding real consumer needs, I proactively explore solutions through survey mechanism for gathering valuable insights. Additionally, I utilized professional research methods and shared within the whole design team.

Data Analysis

- Besides qualitative user research methods, I also conducting comprehensive analysis of user behavior data, decision-making preferences, and business indicators to derive actionable design insights and implementation strategies;
- Possessing strong analytical and abstract thinking skills, with the ability to transform data-driven decision-making processes into visual data analysis tools.

Mission: Making excellent logistics services a compelling reason for users to place orders.

Leveraging a combination of digital and physical design solutions:

1. Design for Merchants

- **Design revamp for Merchant's Platform**

For better usability and localization.

- **Inbound optimization**

Minimize irregular operations and enhance the perfect inbound rate.

- **Scalable onboarding**

Highlight the benefits and entice merchants to come on board.

2. Design for Buyers

- **Next day delivery**

Assess the impact of improved logistics on buyer decision-making processes.

- **Logistics exceptions**

Gain a comprehensive understanding of the logistics status and take necessary actions.

- **Localization exploration methods**

Get better understanding for users all over the world.

A dimly lit warehouse filled with numerous cardboard boxes stacked on metal shelving units and on the floor. A person wearing a white shirt and glasses is visible on the right side, leaning over and working with the boxes. The overall atmosphere is busy and industrial.

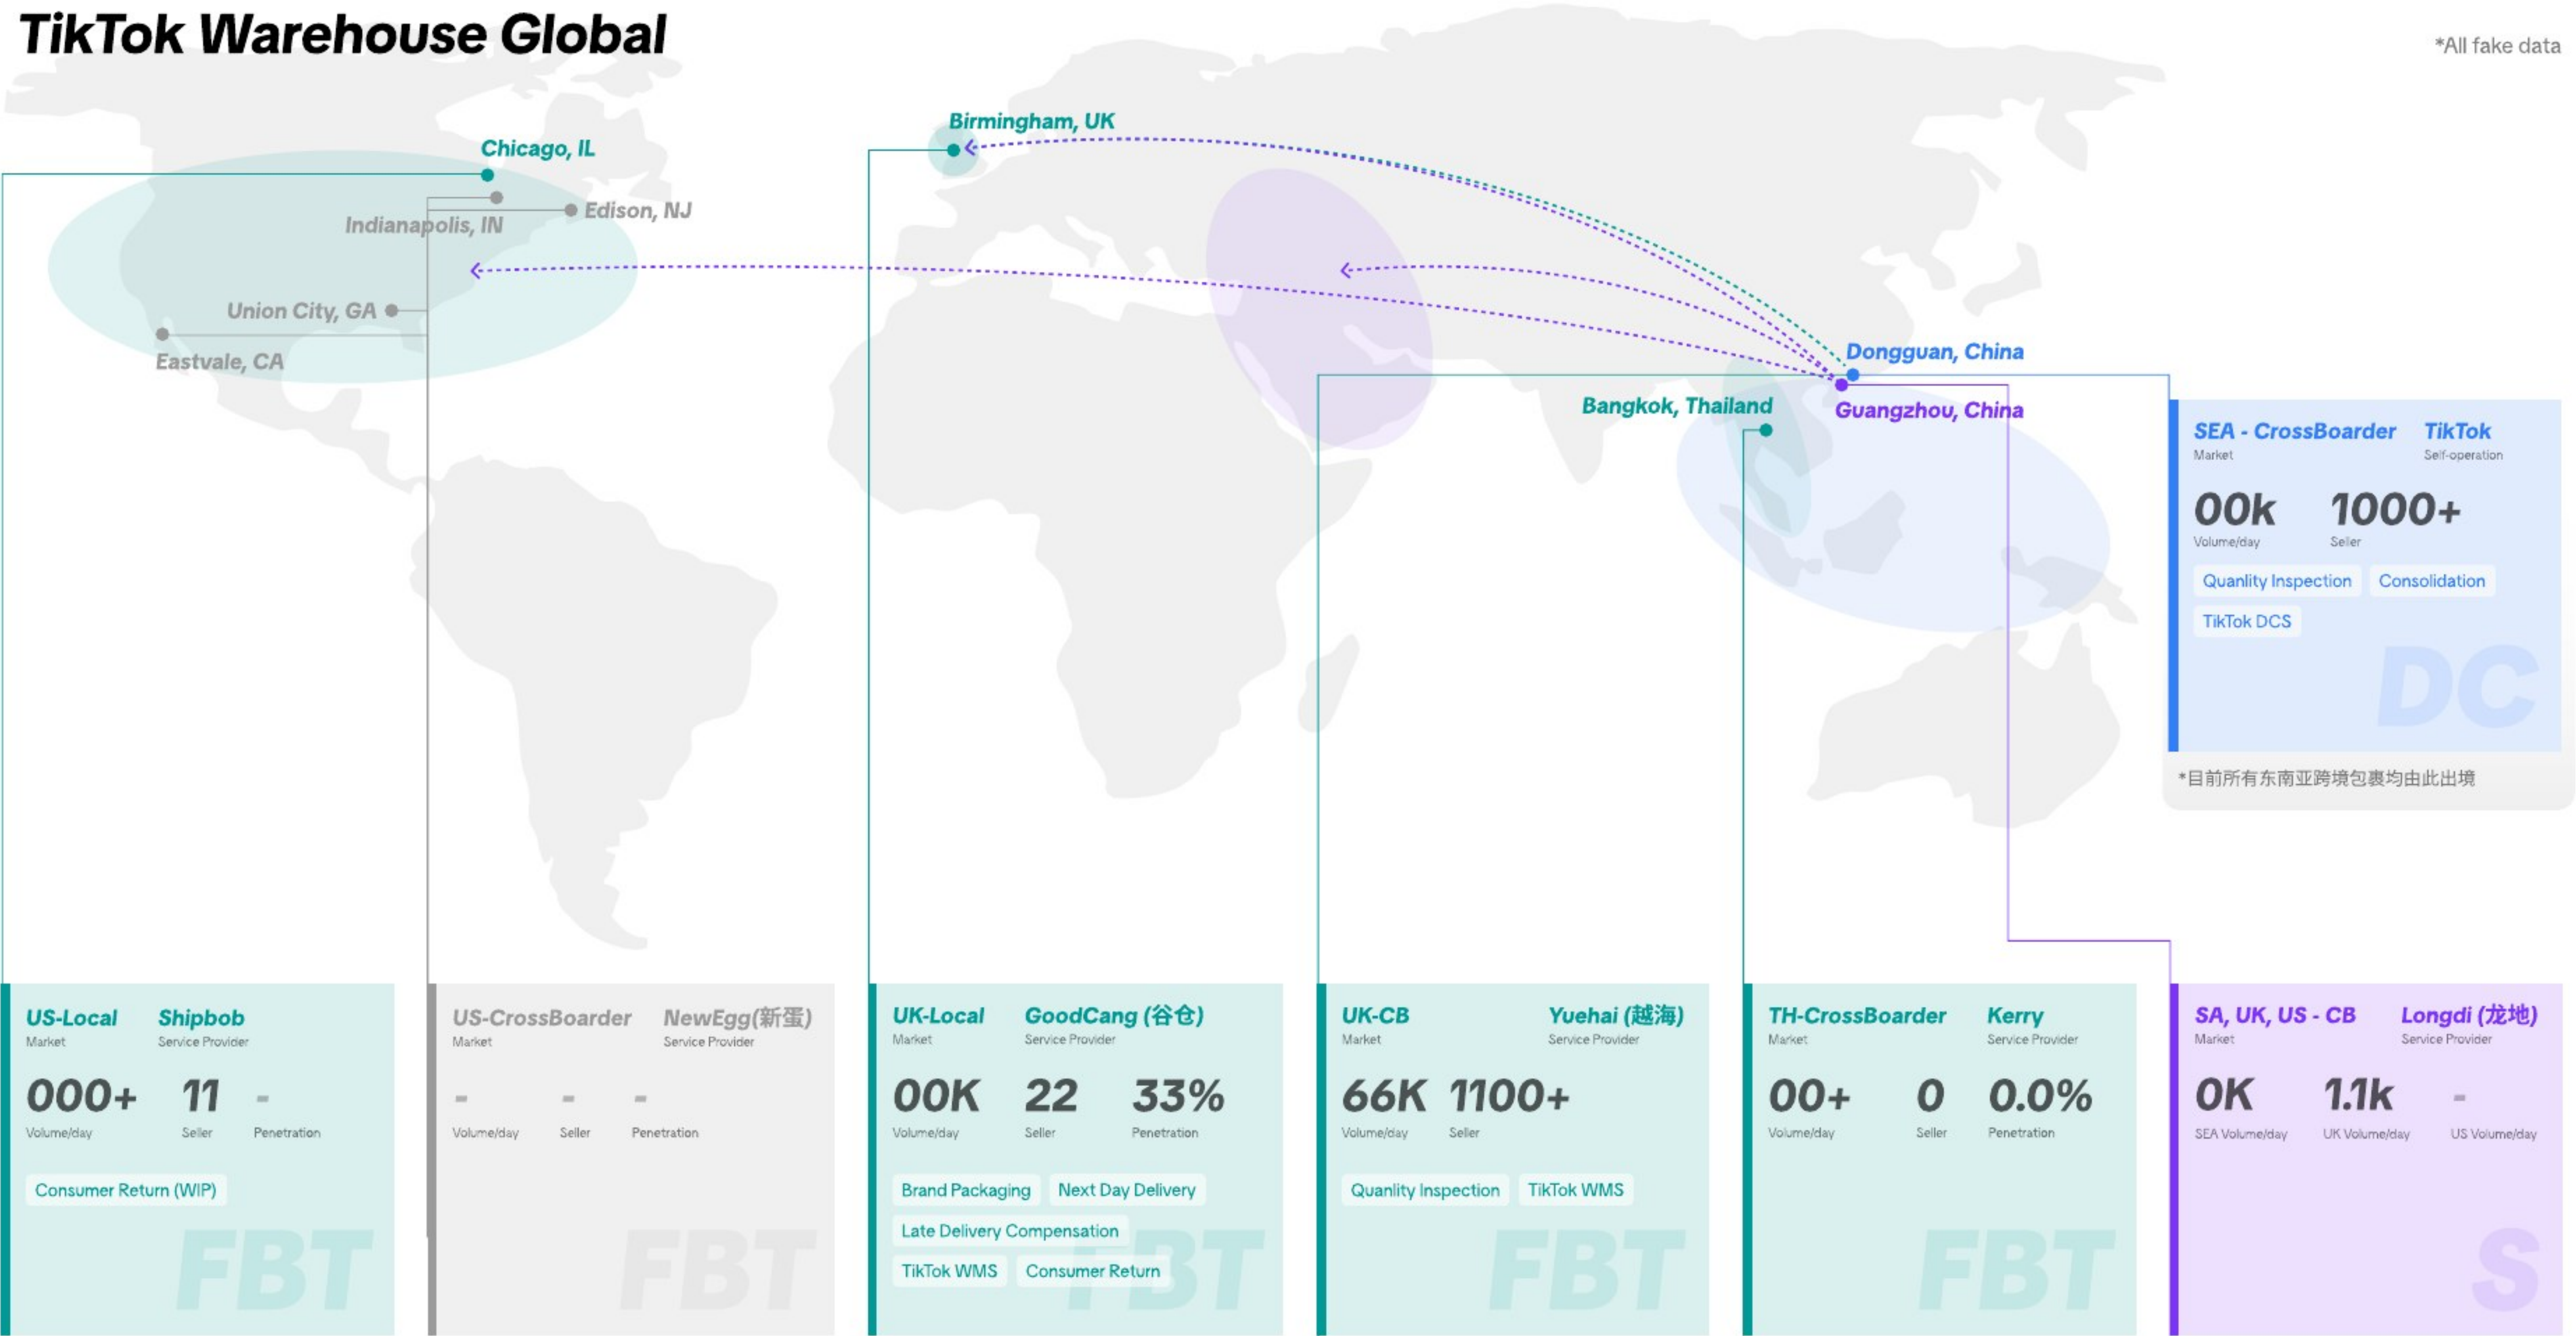

01

Design for Merchants

Fulfillment by TikTok Shop is a service provided to merchants, where TikTok is responsible for warehousing and delivery, as well as related customer service returns. The goal is to help merchants improve operations, give users a more reassuring and satisfying shopping experience.

TikTok Warehouse Global

*All fake data

*Q3目标达到3% 渗透率, 并从1仓增开至4仓

*ACCU模式: American Company Chinese UBO | 美国公司实际受益人是中国人的公司

*Q3目标达到16% 渗透率, 其中40%订单为次日达

*目前要求 UK 跨境商家全量备货入仓

Design Strategy

Goal

Help merchants improve operation efficiency
帮助商家提高经营效率

CSAT ↑

Scale and penetration ↑

Design
Challenge

Small sellers with limited knowledge in logistics

Pursue opportunities to onboard more merchants

Design
opportunity

Newbie-friendly platform experience

Build up the conversion channel

To do

Usability and efficiency

Especially based on key scenarios, such as inbound and inventory.

Rich touch-points

Attract potential users through mass media and other TikTok platforms.

Guidance and educational resources for newcomers

Help with smooth self-onboarding

Clear value proposition

Strengthen the benefits and lead to finish the onboard procedure

Design language consistency with other TikTok Seller platforms

Seamlessly switch between platforms

Takeaway

Localization

UX writing

Establishing a UX Writing Library to ensure consistency and precise descriptions

Visual

Localized UI style

Key Projects

1. Design Revamp for Merchant's Platform.

For better usability and localization.

2. Inbound optimization

Minimize irregular operations and enhance the perfect inbound rate.

3. Scalable onboarding

Highlight the benefits and entice merchants to come on board.

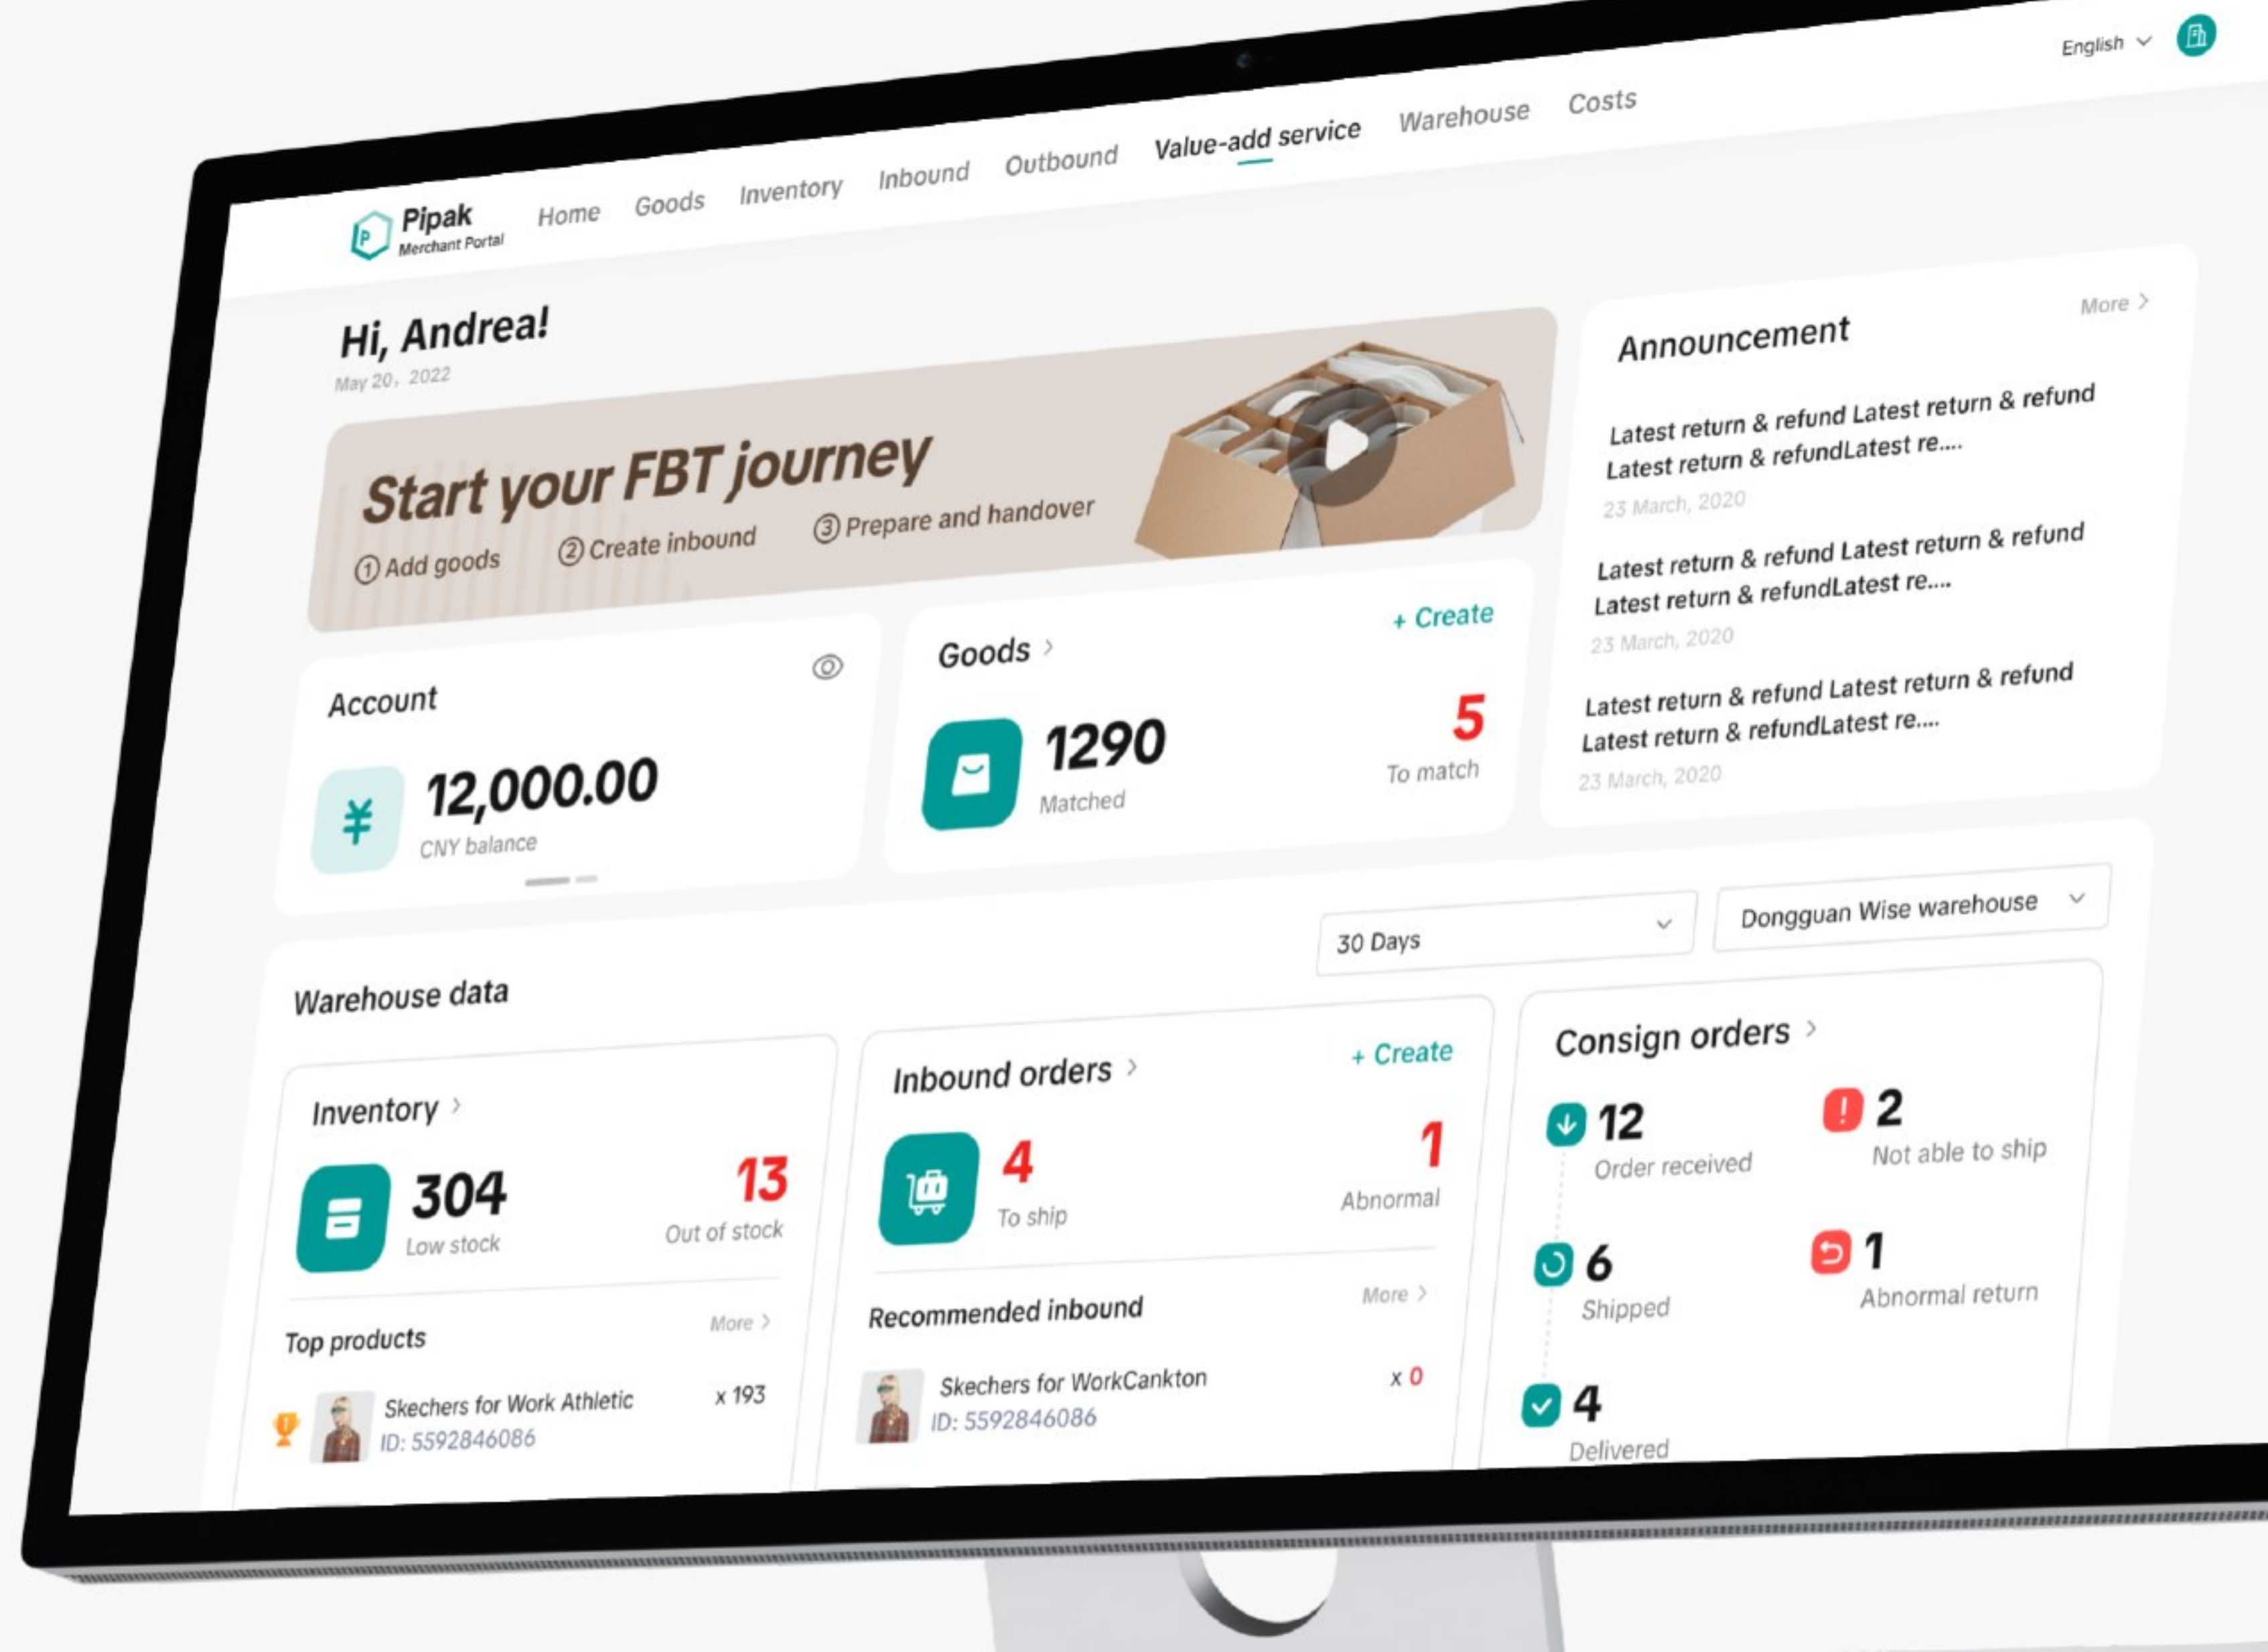

1. Design Revamp for Merchant's Platform

More Localized

By analyzing local platforms, update the visual style and ensure adaptability to different languages.

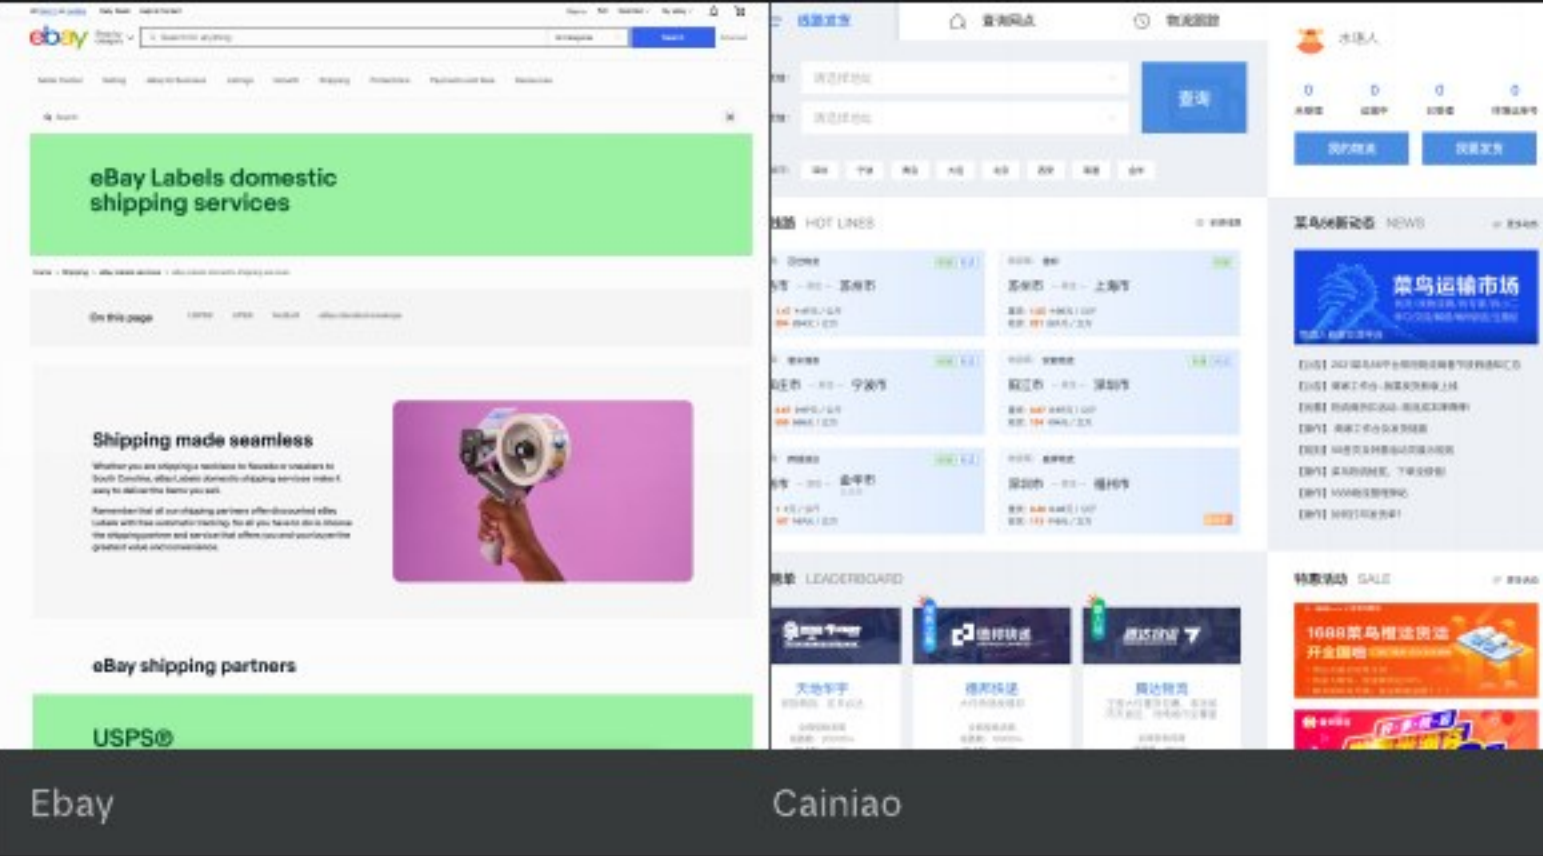

Better Usability

By user interview and UX walk-through, revitalize three typical UX frameworks and achieve complete user satisfaction.

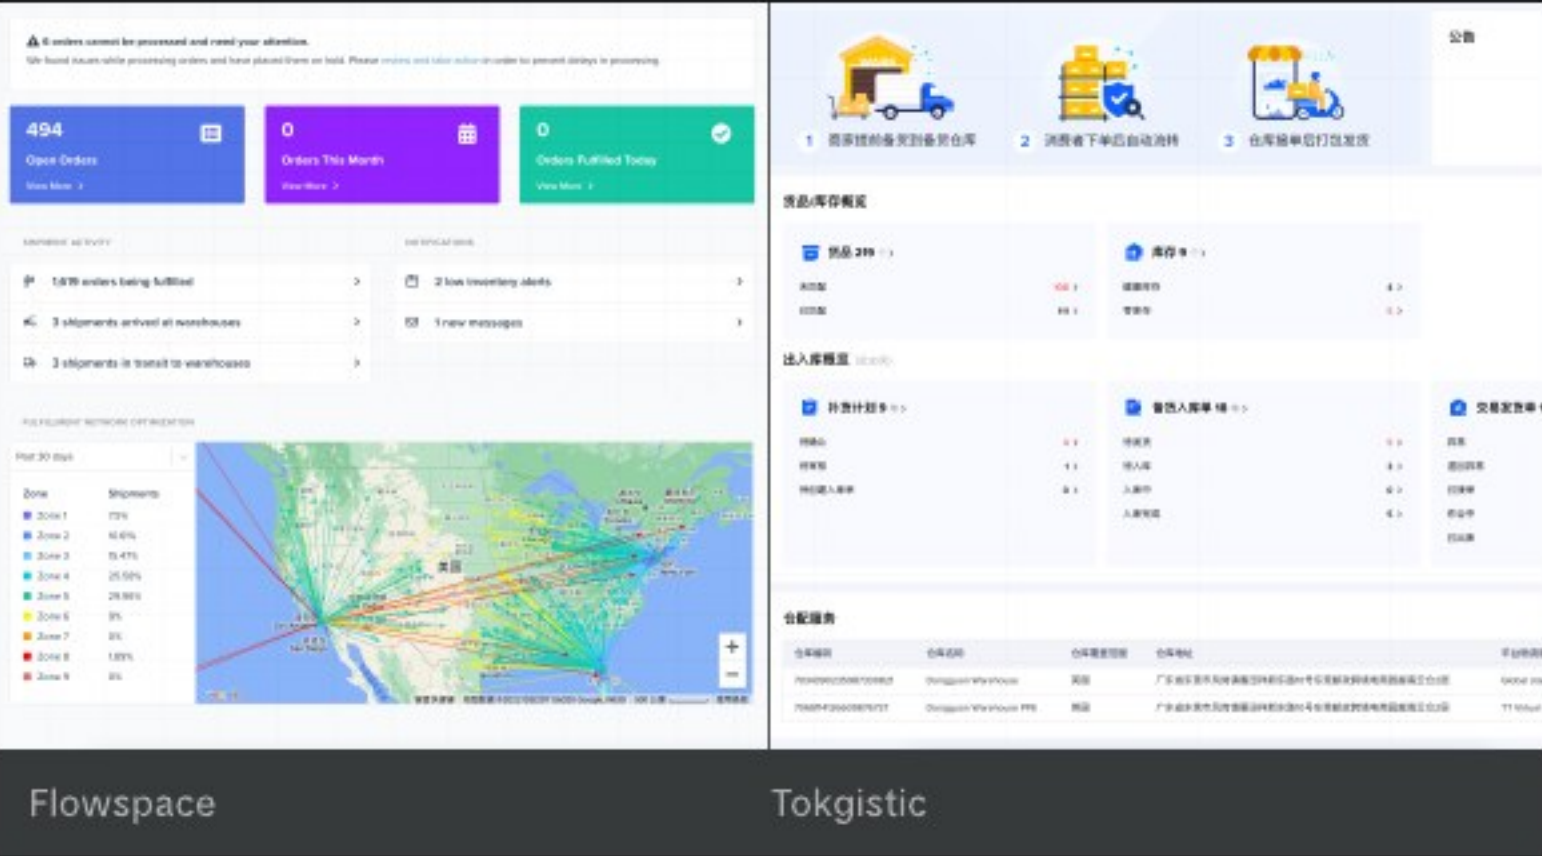

Define localized visual style

Lower information density

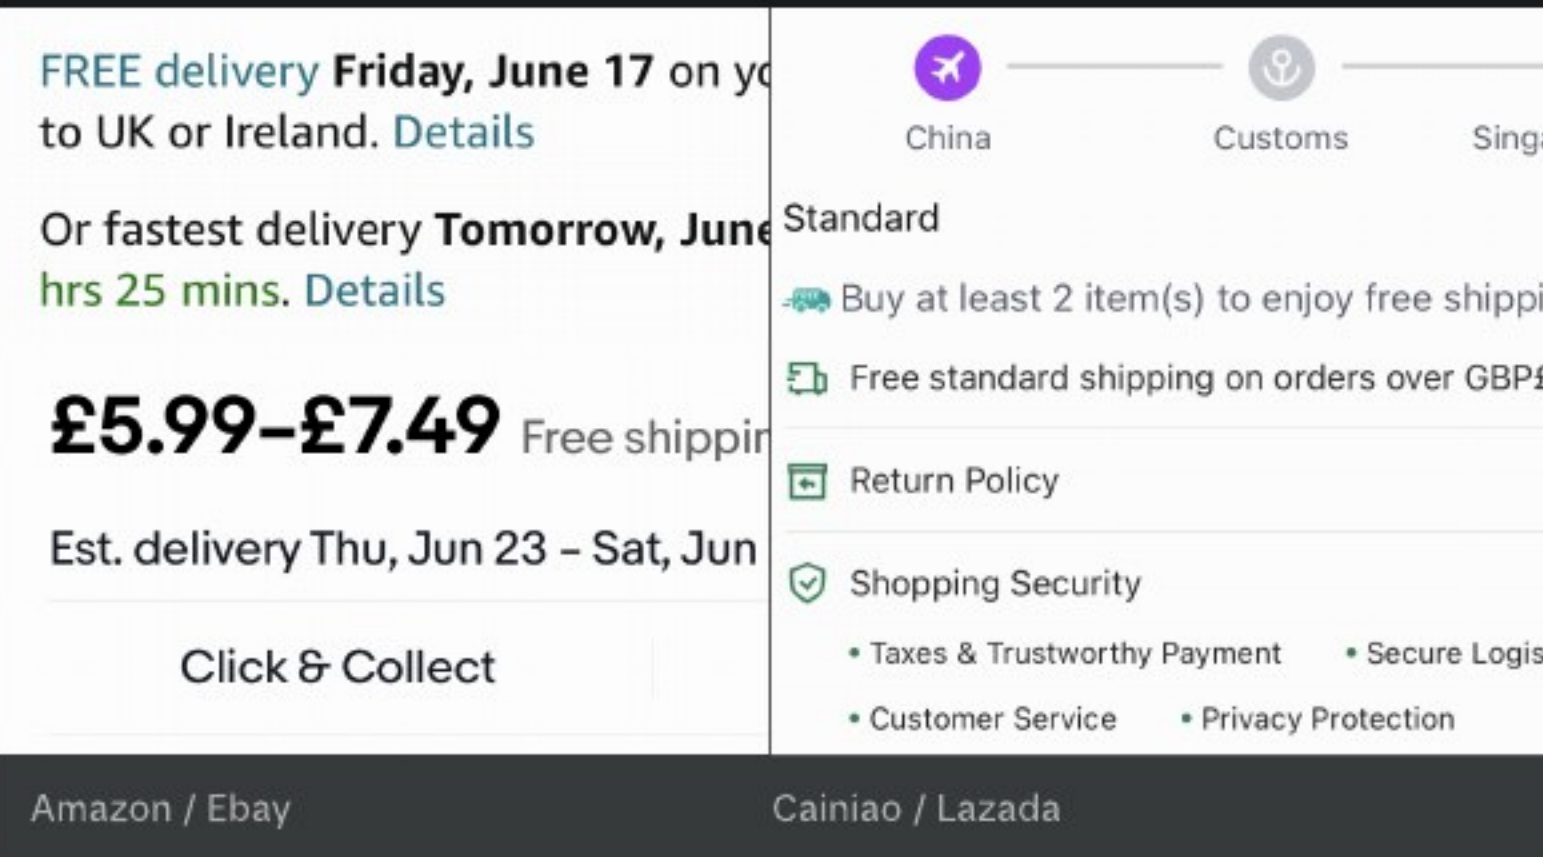

Stronger hierarchy

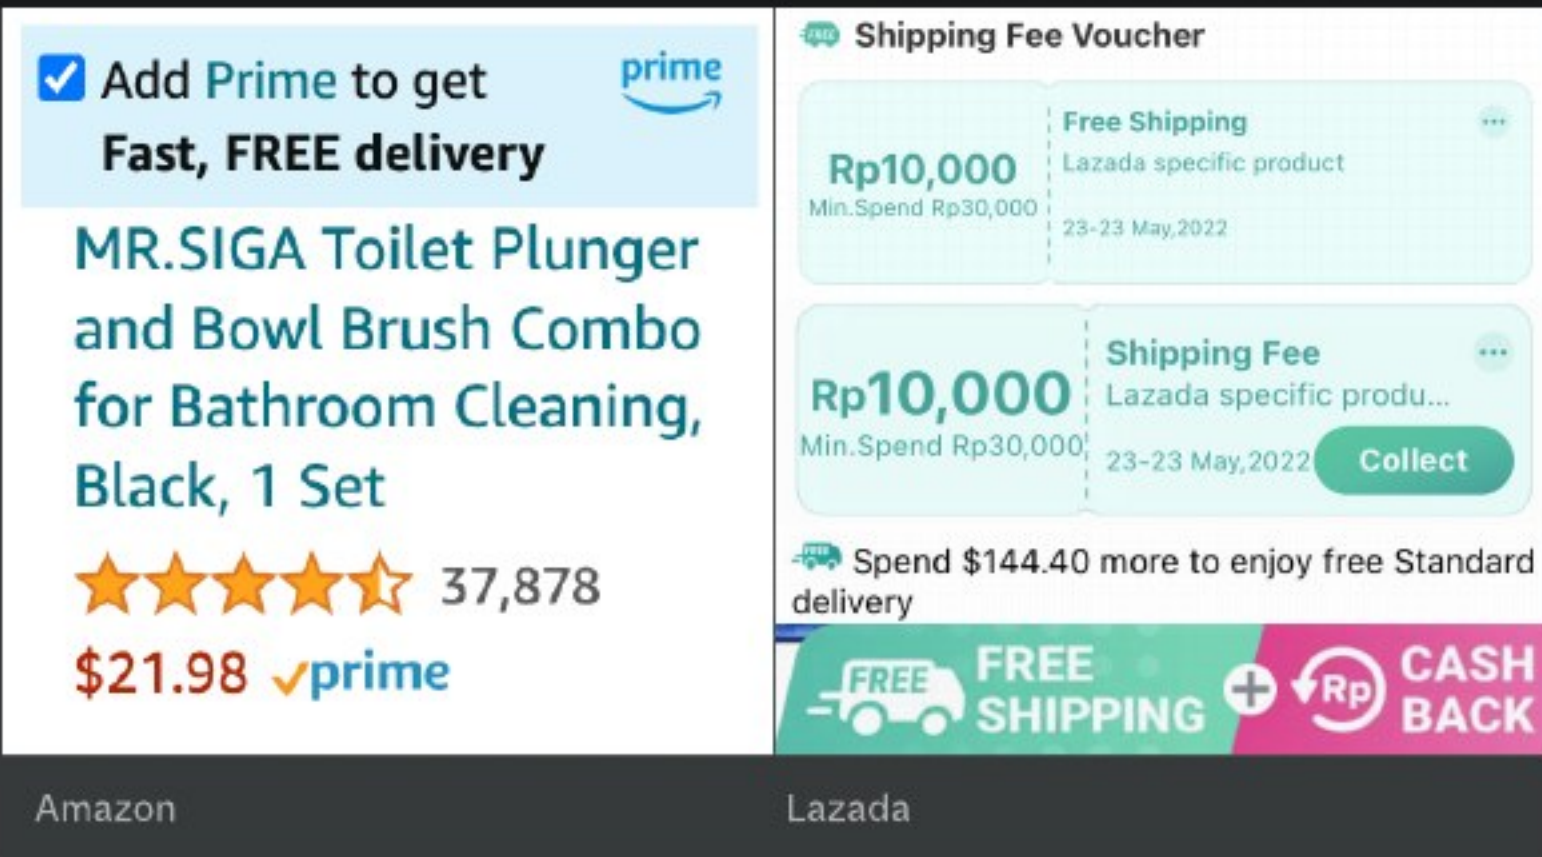

Different color semantics

Text instead of icon

Easier Marketing Rules

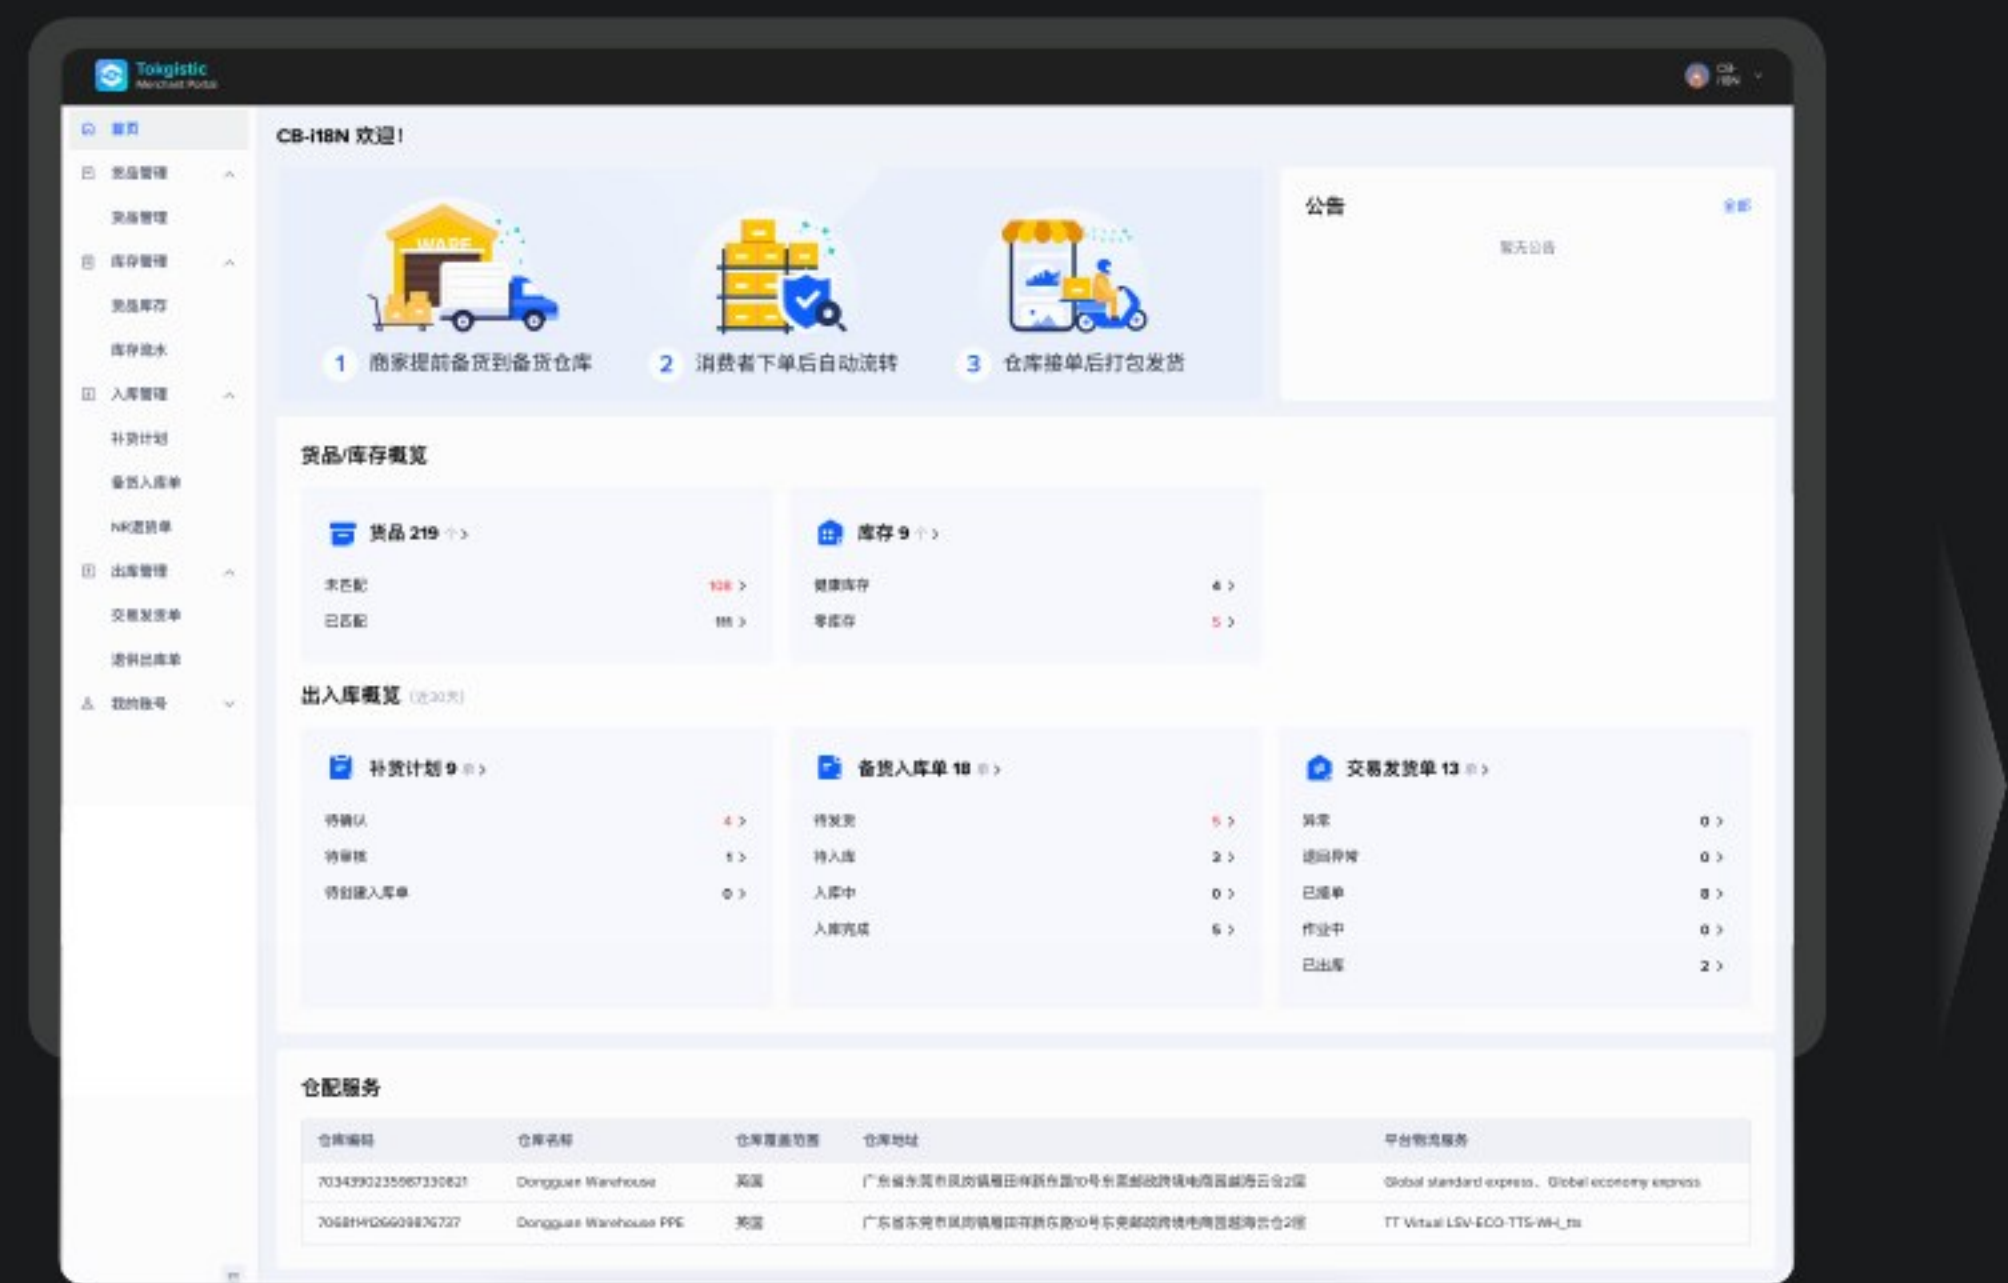

Stricter privacy protection

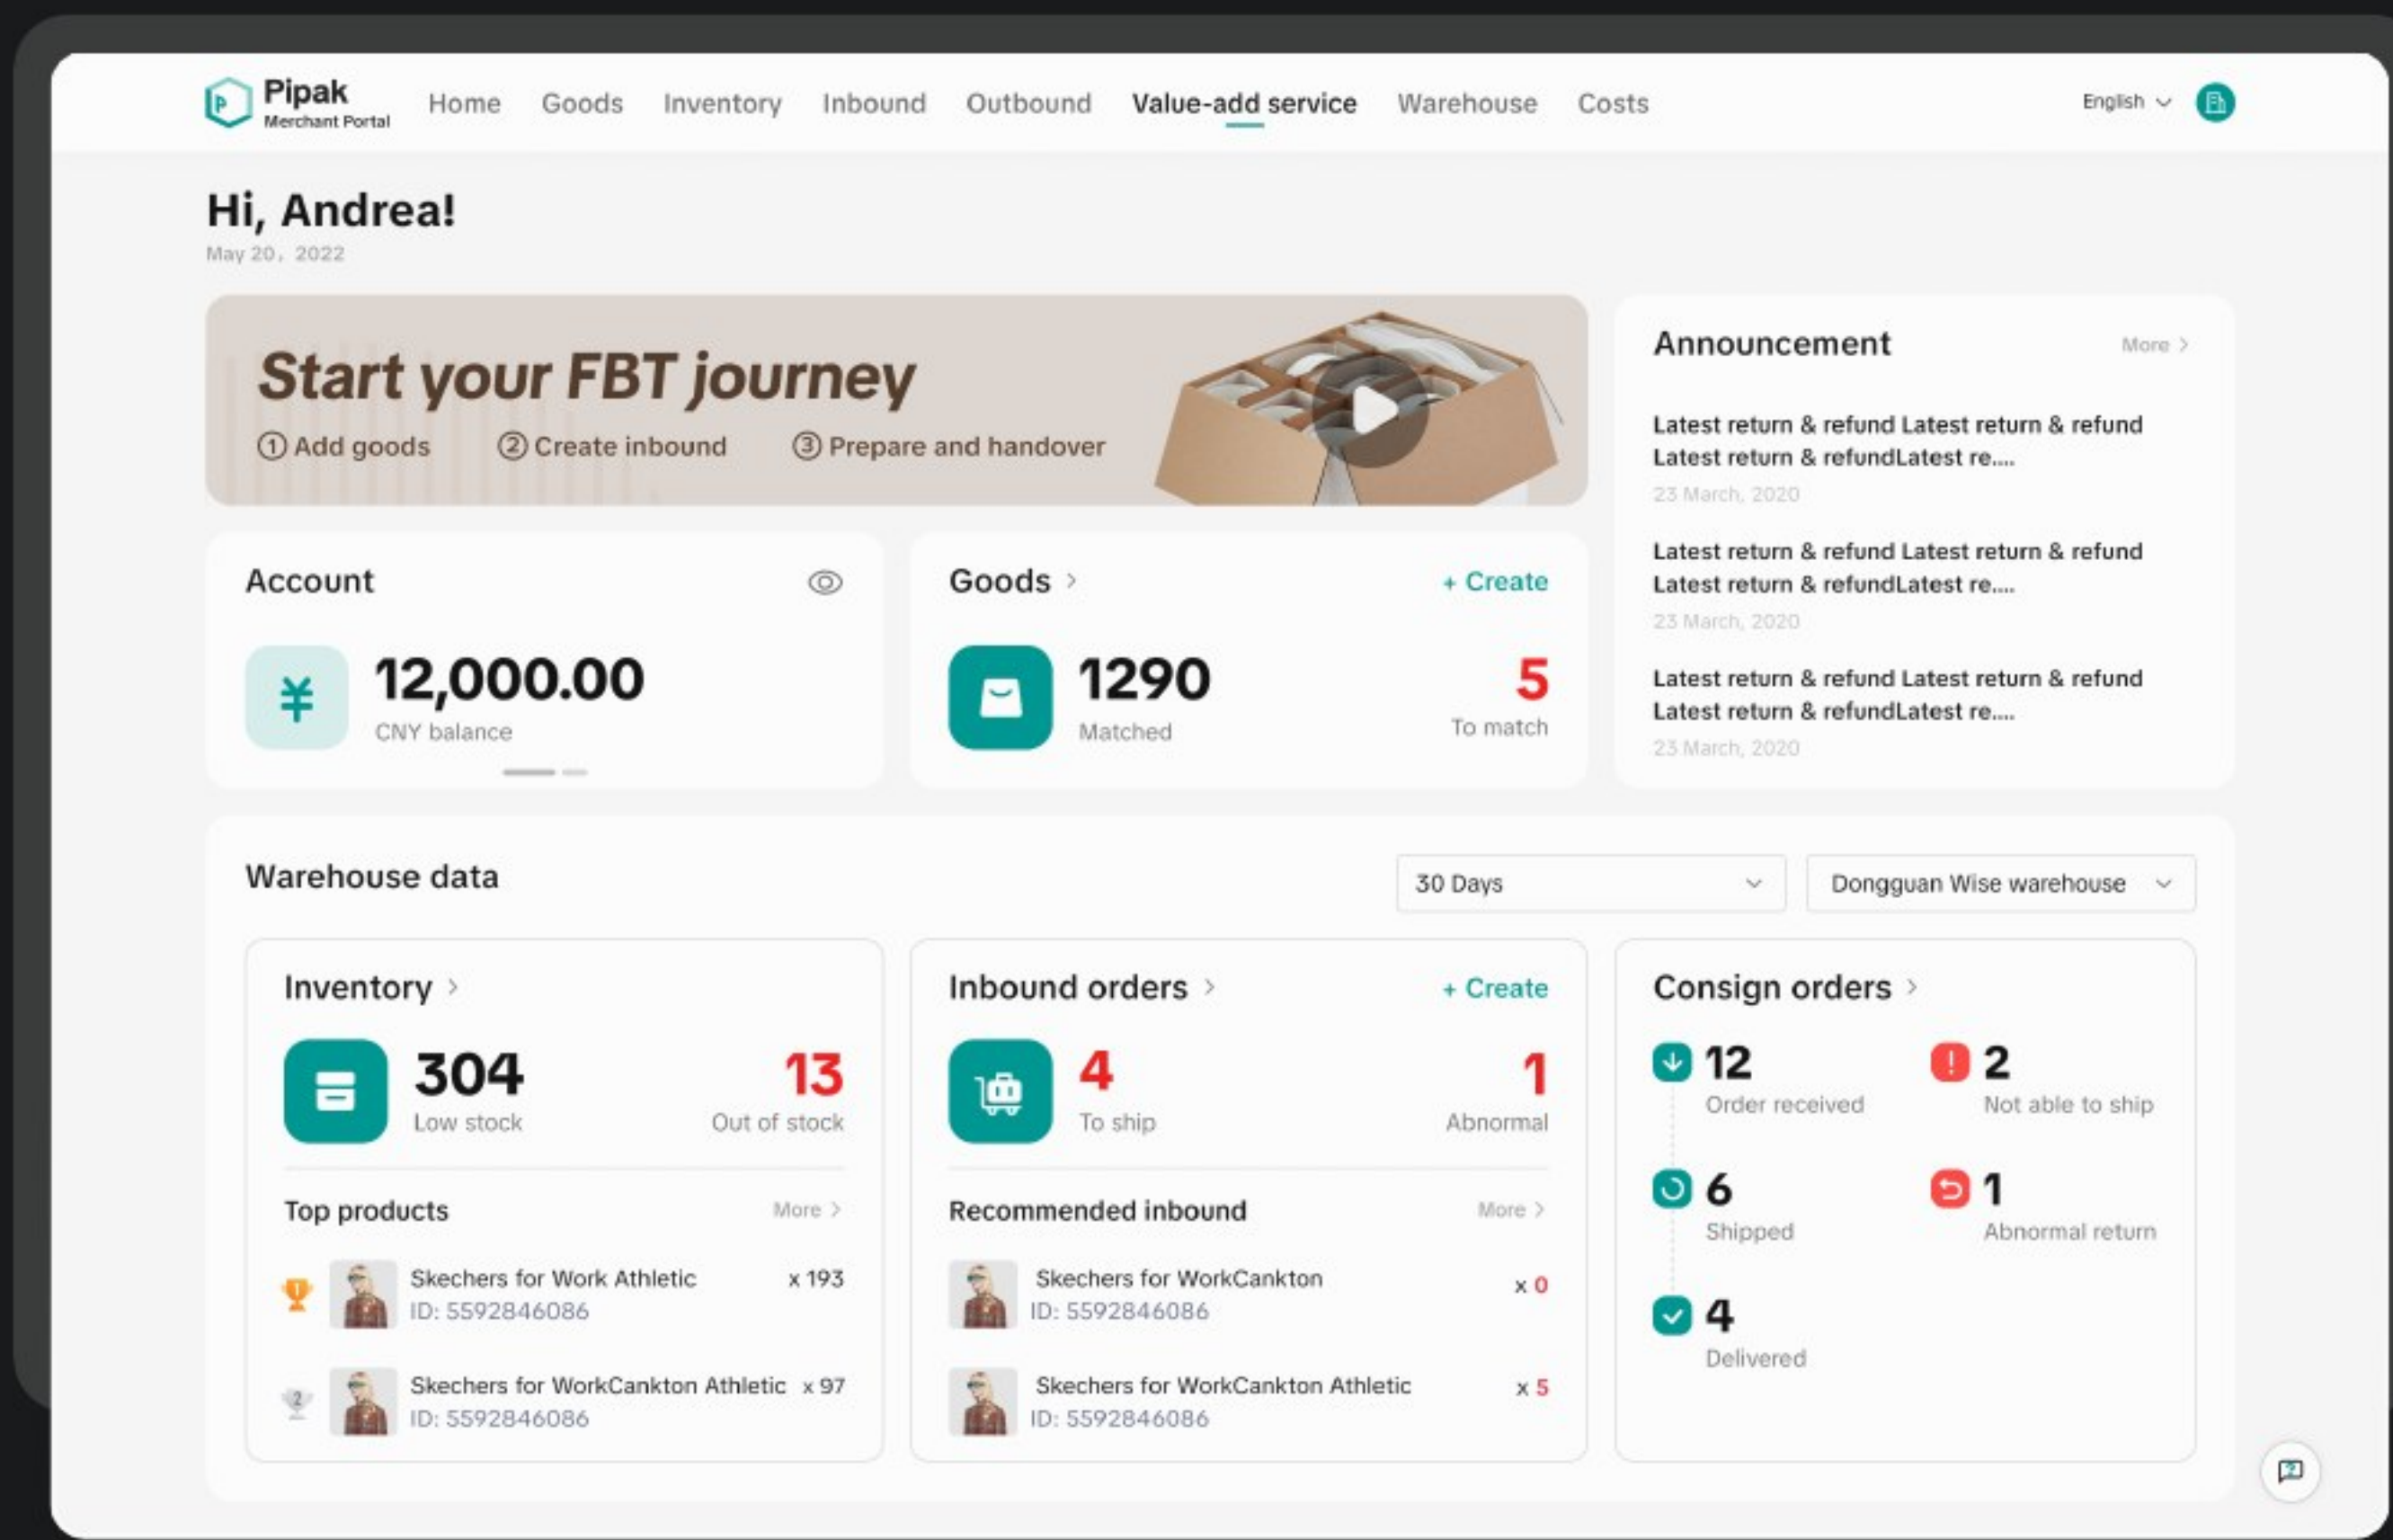

Revamp: Homepage

User research insights and competitor analysis helped a lot to push the framework optimization.

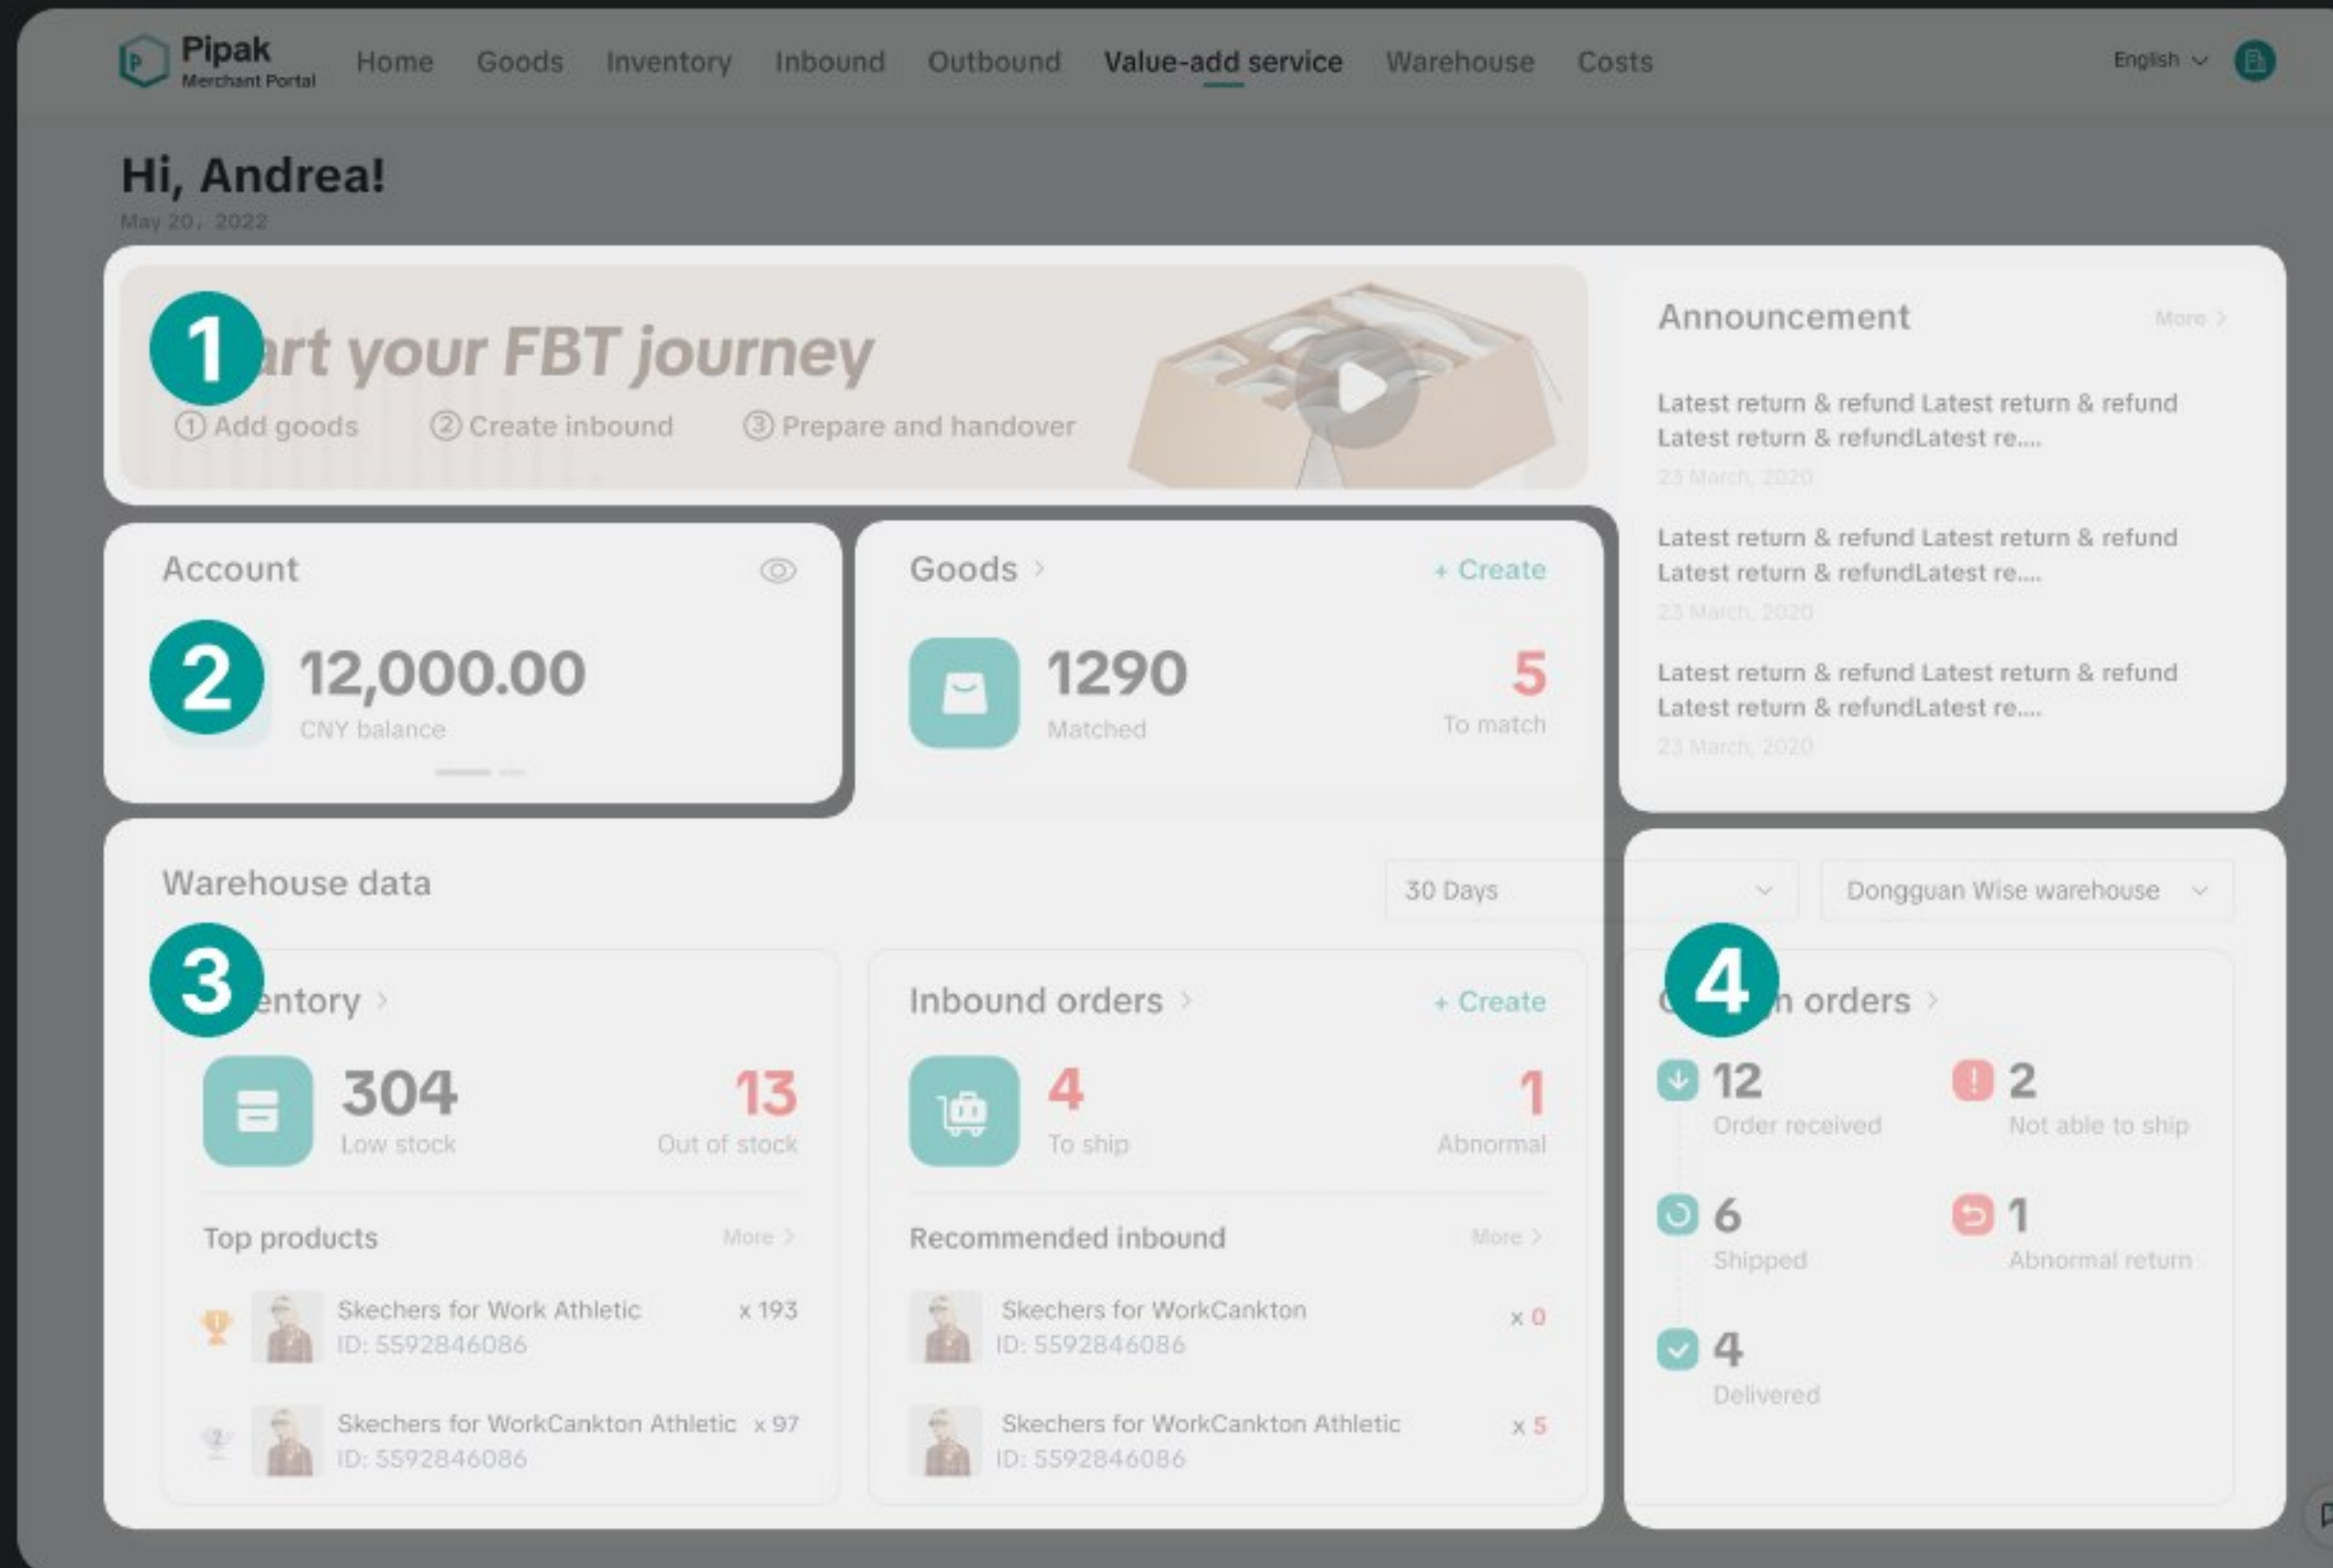

BEFORE

AFTER

Revamp: Homepage **Reduce information density and interface complexity**

1 **Banner & Announcement**

For important and instant info. Such as new feature launch, low inventory.

2 **Account Balance**

In time recharge to avert service disruption

3 **Key Metrics**

Inventory management

4 **Consign Orders**

Consumer orders and corresponding status.

Simplify the navigation

To leave more space to content.

Improve contrast

To facilitate the identification of crucial information.

Improve contrast

Display essential details prominently on the homepage, along with the total count.

Revamp: Table Group and integrate information to emphasize key details.

Collect user feedback From 8 merchants, via Lark chat

100%

Positive

"All the important information on the homepage and easy to find"

"Much more intuitive"

"Very good warehouse management tool"

"Much better"

你好，最近货主平台整体进行了一次改版，想了解下您对新版的感受怎么样

比如：和旧版比，有哪些更好的/不好的点，以及是否有进一步优化意见

直观明了很多

挺好的

没问题。新版很直爽。

5分

整体产品的满意度，如果1-5打分的话，您觉得可以打几分呢？

现在的版本 更清晰明了 重要信息都在首页里 想看什么信息 基本上都能很短时间找到 改变还是很好的

王琛

贾华

不成熟的关于 供应链的想法

你是设计师，但是我觉得设计是没有什么大毛病的，你们这个产品交互，已经是比较好的仓库管理

我从功能上说下

- 1、备货建议-这个是商家使用频率最高的，我们最好能够设置规则，然后自动生成备货建议，这样商家可以快速下单
- 2、入库签收-这个也是商家频率最高之一，然后基于这个我们能够快速发现入库商品明细和异常
- 3、仓库滞销管理-健康度其实没有多大帮助，我们需要一个：多少库存，每日动销，滞销天数，这种类似的

2. Inbound optimization

✗ Do not meet packing specifications

✗ Lack of necessary documents

```

Inbound Order Detail

Warehouse Receive | 仓库收货

Finish Inbound | 上架

1. Finish inbound and ready to sale.

Numerous inbound exceptions

Only 13% of inbound orders are free from any issues, indicating that the majority of orders require additional time before they can be sold.

Heavy training load

Each new merchant onboard requires approximately 1-2 hours training of supply chain operation.

Different market requirements

Warehouse SOP and the use of professional terminology are different between the UK and the US.

Design for whom and why

中小商家(SMB) 约占总商家的 70%，他们往往一人身兼数职，是创作者、商家，也是货主，经营 TikTok 是他们事业版图中的重要部分。他们充满热情，但对物流实操 SOP 了解较少，对相关风险（爆单、入库延时、缺货、滞销）等的承受能力也相对较弱。非常需要我们在设计时更多为他们考虑。

★ Key persona

SMB

- Creator, seller and merchant. Need all family's help for sales.
达人出身，草根创业，一个人要干所有事情。团队很小，爆单时全家人一起帮忙
- Only stock the top-selling products to the TikTok warehouse.
送仓货品: SKU少，爆品为主，备货偏浅
- Inbound solution: Primarily loose loaded, few palletized.
送仓方式: 一次送仓量级小，散货为主，也有整托的
- Pain-point: not familiar with the inbound SOP and often lead to mistakes.
入库痛点: 实操流程不清楚，容易出错

KA

- Well-versed in all aspects of the inbound SOP and always aligns with Amazon.
有专员处理物流事宜，熟悉各大平台仓发流程。基本以 Amazon 的认知为基础执行 FBT 送仓
- Maintain a wide range of SKUs with significant inventory depth.
送仓货品: SKU较多，备货深度较大
- Inbound solution: Primarily bulk palletized items.
送仓方式: 一次送仓量级大，基本以托盘维度送仓
- Pain-point: Desiring more value-added services to be offered by the warehouse.
入库痛点: 实操问题少，希望平台能提供更多增值服务

How to Correctly Attach It?

✓ Attach on the two smallest sides on the outer carton.

✗ Do not attach to the sealing side.

Packing Guidance:

#1 Pack the SKUs into carton.

✓ Segregate different SKUs physically in 1 carton.

✓ Each carton contains only 1 SKU is preferred.

✗ Too many different SKUs within same carton, which lowers inbound efficiency.

✗ Lack of physical segregation among different SKUs, can easily cause inbound failure.

How to Correctly Attach It?

✓ Attach (at the top or on the side of) the outer packing.

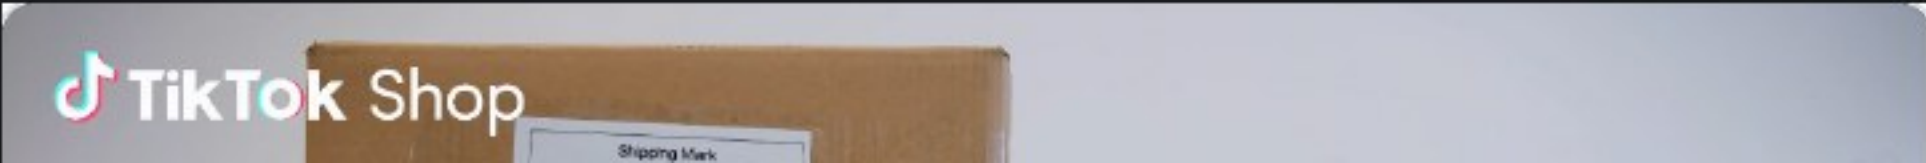

✗ Do not attach to the seam, corner and edge.

✓ Except OC SKU label or seller SKU barcode, do not attach other labels with barcode.

✗ Must not be covered by wrapping materials or adhesive tape.

Good Requirement

#2 Use proper cushioning and bracing to avoid the articles from shift in transit.

Delivery Note

Seller Education: Online guidance Help understand how to practice

Illustration to help explain the concepts

Small parcel

Only for under 20*40 feet. otherwise an additional unloading fee will be charged if not palletized.

Pallet

Both less than load (LTL) and full truck load (FTL) are supported.

Floor loaded container

Loaded from the floor up without utilizing a shipping pallet.

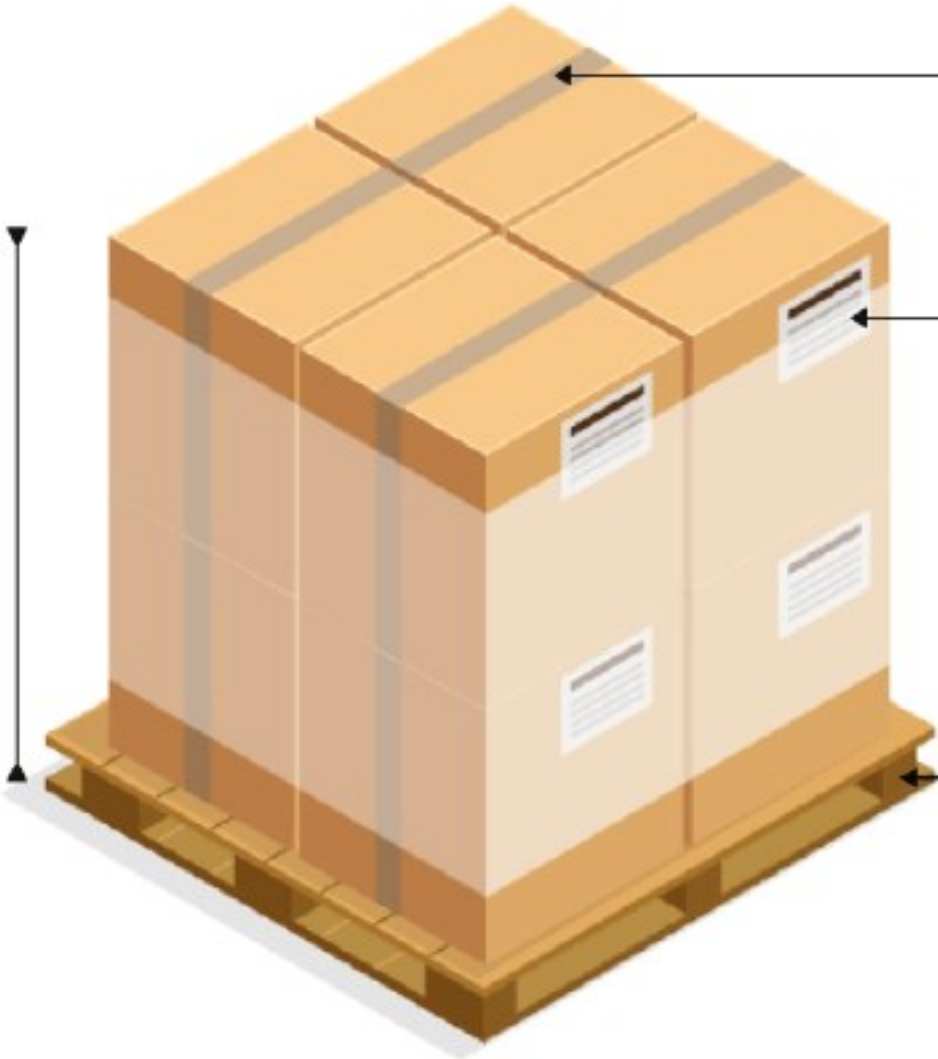

Other

In case none of the above options are suitable.

Max weight: 1100 lb
(including pallet)

Max height: 70 in
(including pallet)

Brace the pallet with multiple bottom arms to prevent pallet deflection.

Carton label must face outwards

Pallets should be of good quality, with no cracks or missing slats; with bottom supports to disperse weights of load evenly and prevent vertical supports from breaking off.

Naming and sorting for downloaded files to help understand how each file works

Offer different value propositions in different scenarios

1. In general: Homepage

Basic description introduce what is FBT

Thinking of Trying Fulfilled by TikTok Shop in 2023?

No minimum order VOL requirements, no integrations or development, and 30 days FREE storage.

Learn more

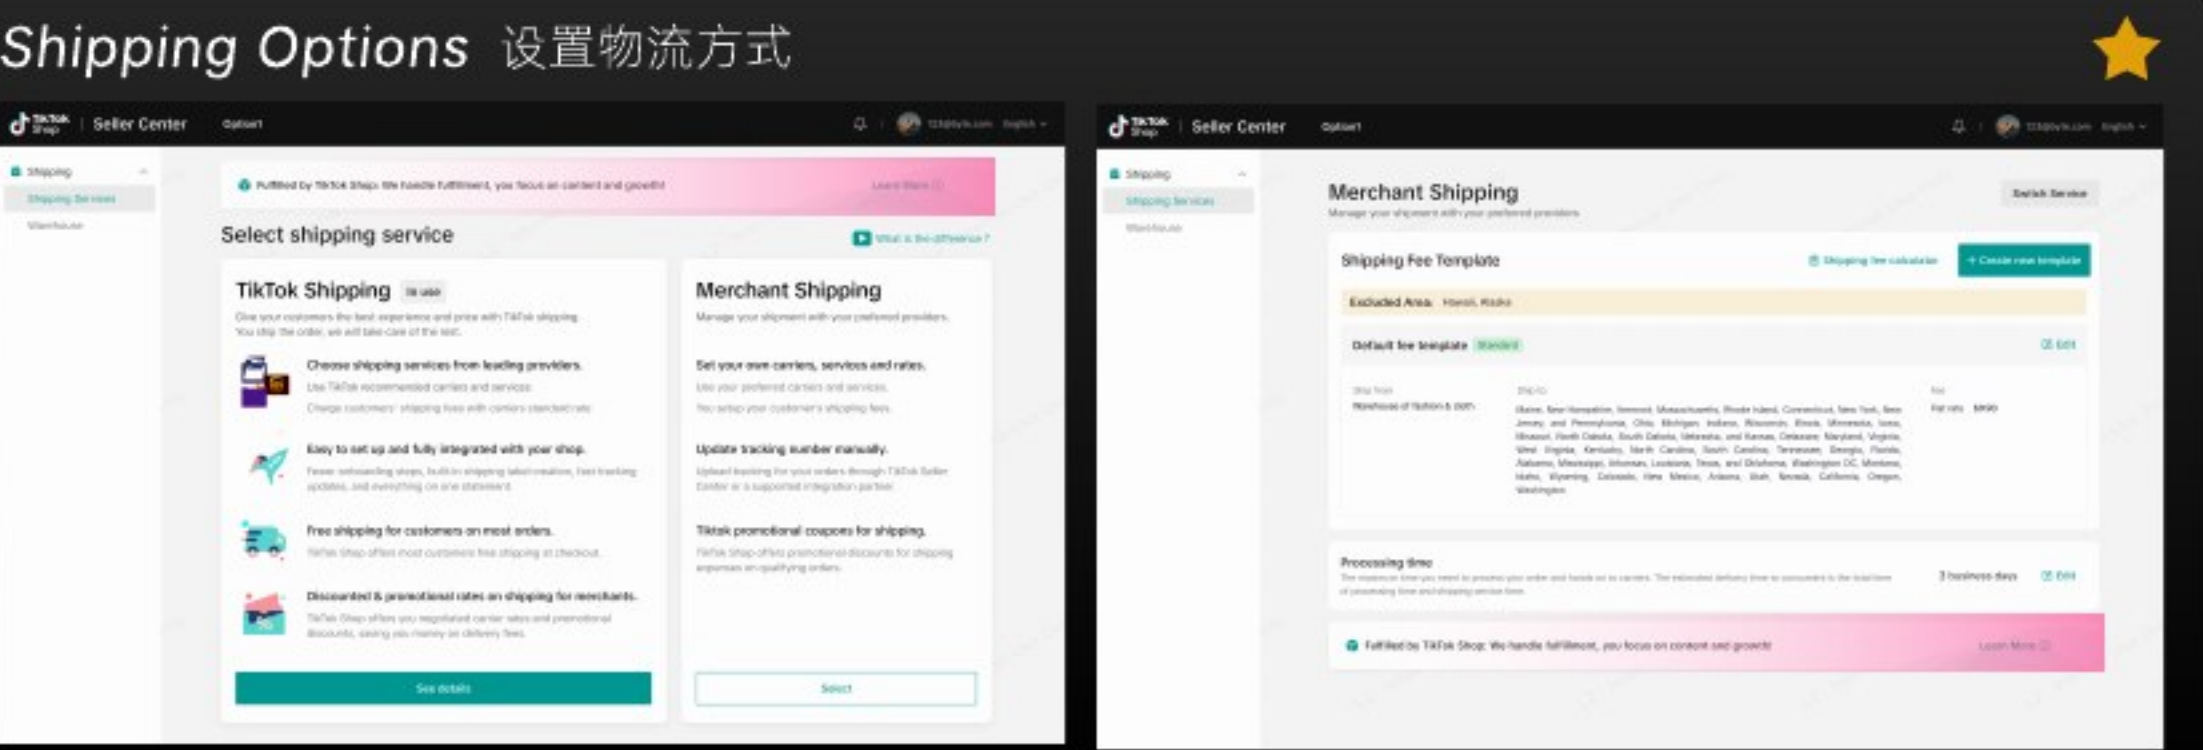

2. Specific: Logistics related scenarios and corresponding content

Scenario	Key benefit	Copywrite & Component
Shipping Options	FBT Introduction in general	 Fulfilled by TikTok Shop: We handle fulfillment, you focus on content and growth! Learn More
Order Management	No shipment manual work	 Don't want to manage order by yourself? Try Fulfillment By TikTok Shop FBT store, pick, pack, and ship your goods to TikTok Shop customers, enable you to focus your time on content and growth on TikTok Shop. Learn More
Logistics performance	No evaluation needed for fulfillment metrics	 Worried about fulfillment performance rate? FBT can help you with that! Allow FBT to take care of storing your products, picking and packing them once orders come in, and ensuring they reach your customers quickly and securely. Learn More
Consumer Return	Help deal with return orders	 Don't want to manage return order by yourself? Try Fulfillment By TikTok Shop FBT helps with return order so that you don't need to deal with it by yourself. Learn More

Acquisition: What are the effective touch-points?

1. New User: Onboarding and Setup 新用户：入驻设置

Announce FBT during shipping service setting process, and highlight key benefits to attract consumers here.

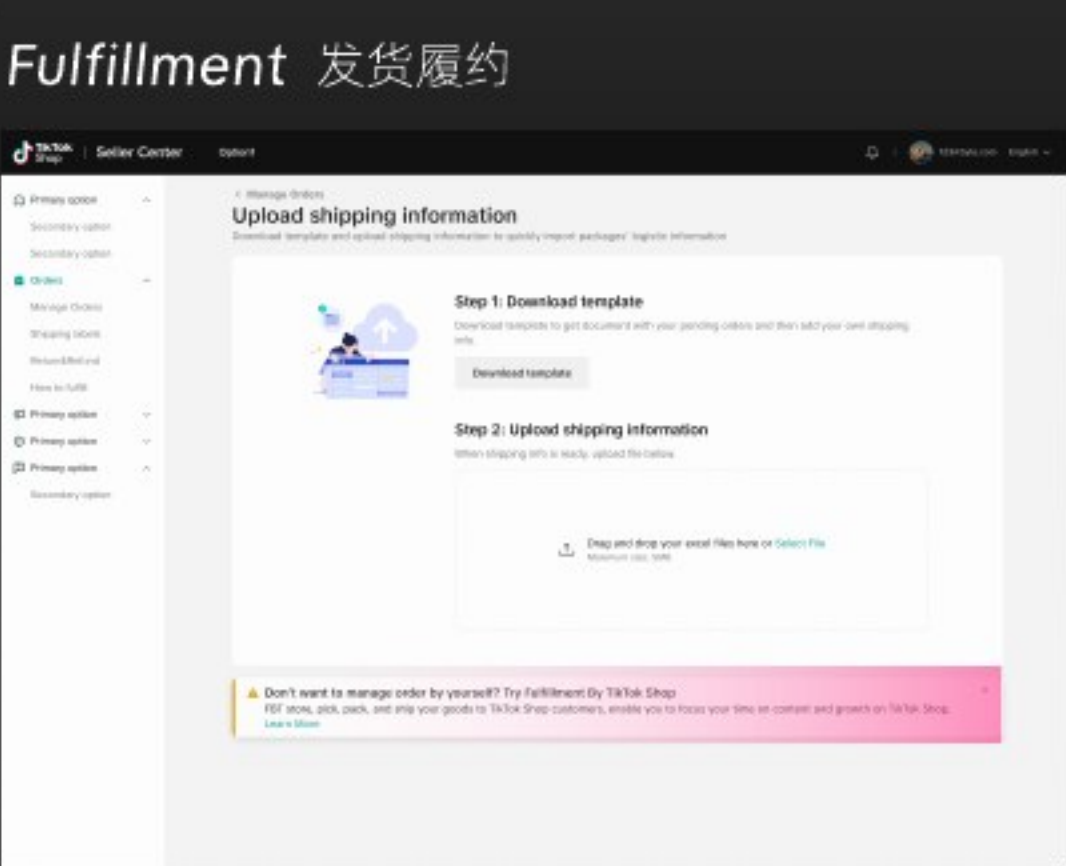

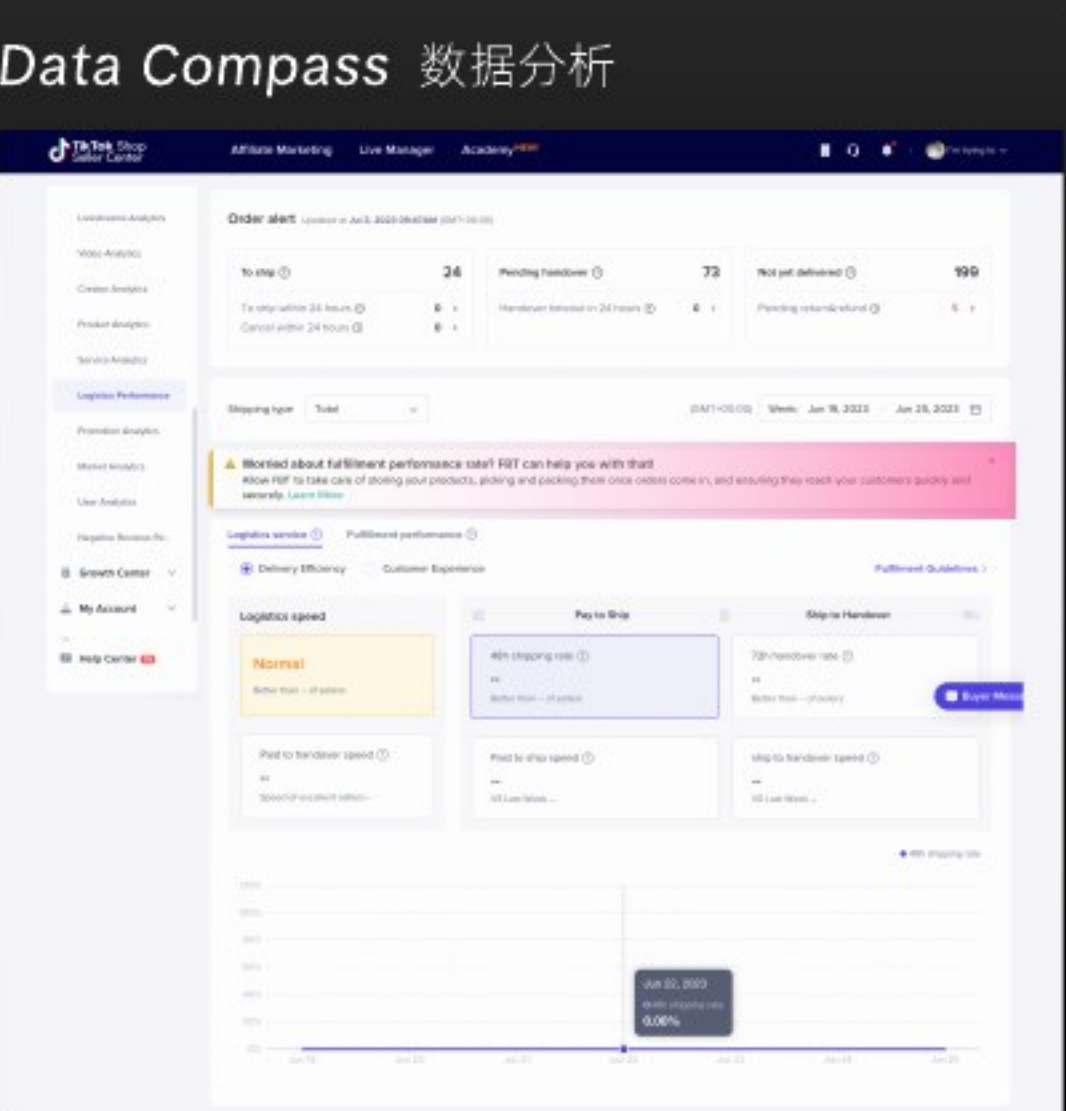

在用户进行基础物流服务配置时，告知有 FBT 的存在，并通过非常精简的描述进行介绍。

2. Existing User: Daily Operation & Management 老用户：日常经营管理

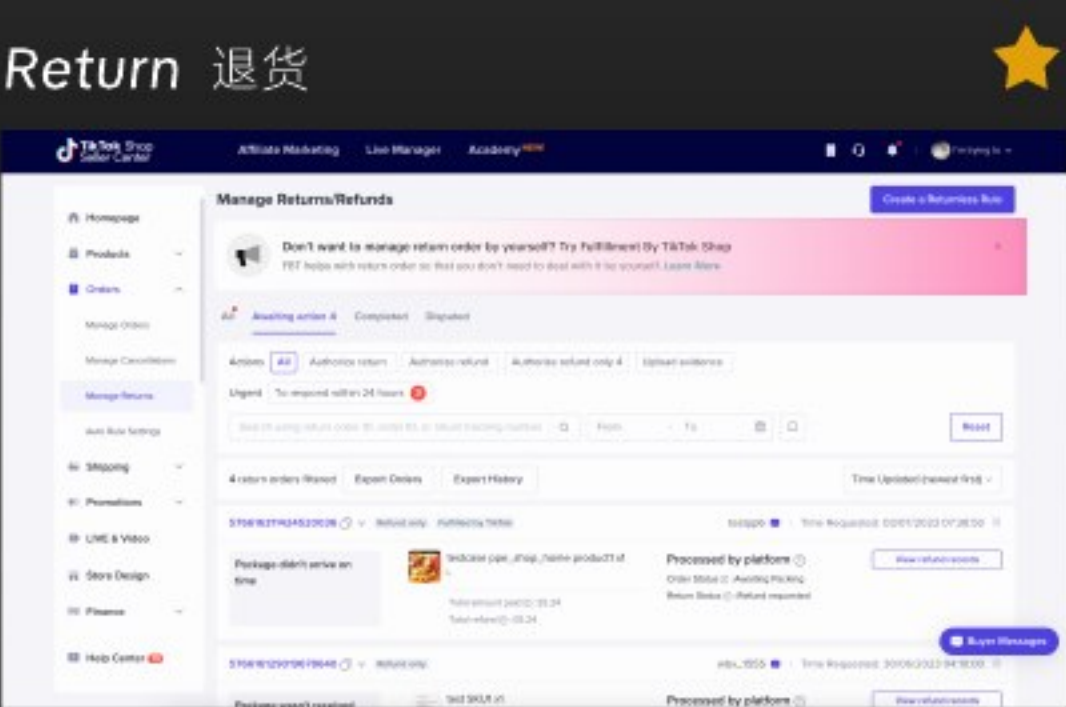

Adding banner (7 days maximum)
首页 banner 位：最多连续出现 7 天

For sellers with bad fulfillment performance, highlight FBT service.
用户查阅物流指标时，对物流履约表现不好的用户，针对性地强推荐 FBT

By using FBT, you no longer need to worry about shipping issues such as upload every shipping information.
如果使用 FBT，商家无需自行处理发货事宜，无需每笔订单都上传物流信息。

FBT provides consumer return service in the US, which is an attractive benefit.
在 US，FBT 提供退货服务，是一个较有吸引力的利益点。

2. Logistics exceptions

Background

- **Buyers ask about delivery status a lot**, especially when promised time is breached;
- **Lack of proactive announcement**, which leads to more consumer tickets and negative comments;
- **Logistics NPS lower than competitors.**

Opportunity

- Bridge the gap by ensuring clear transmission of information and providing behavioral guidance to help buyers gain a comprehensive understanding of the logistics status. This will enable them to take necessary actions, ultimately reducing the number of related tickets and abnormal orders.

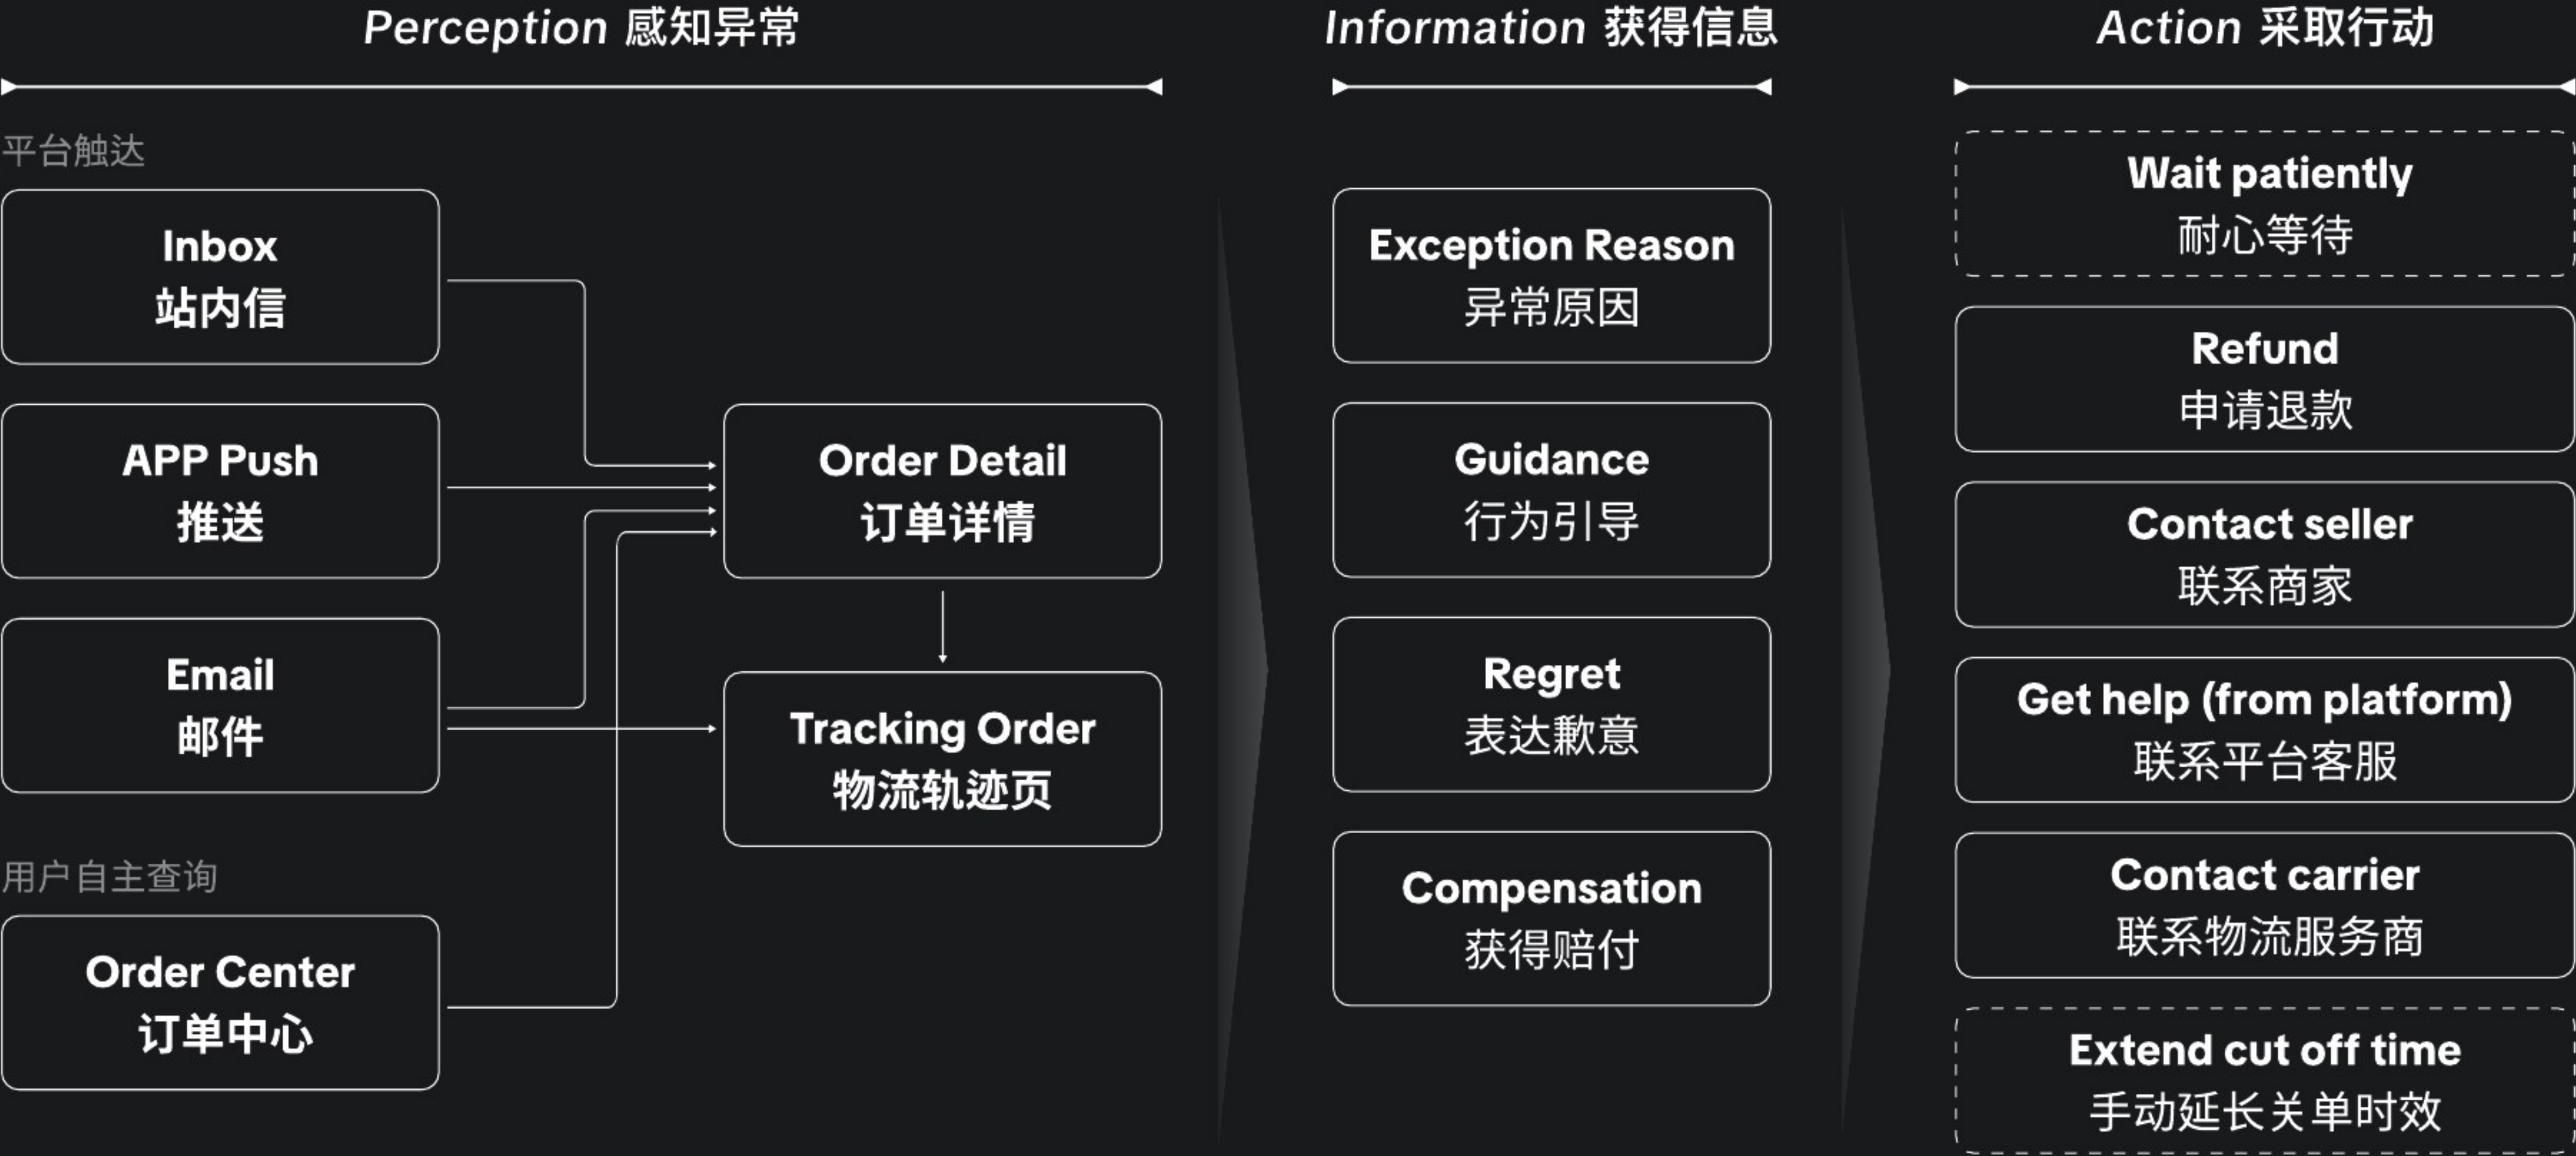

Logistics exceptions: Scenarios & Touchpoints

Buyer view		Exception status	Suggest solution								Touch points					
			Close order and refund	Extend order closure time	Refund	Contact seller	Wait patiently	Compensation Coupon	Contact Carrier	Contact platform	Order detail	Tracking detail	Inbox	Push	Email	SMS
Dispatch	Late dispatch	Low		✓ SEA only		✓	✓				✓		✓	✓		
		High	✓ Not auto in UK&US		✓			✓ Late must compensory			✓	✓	✓	✓	✓	
	Seller decline order	High	✓			✓					✓		✓	✓	✓	
Handover	Status update	Low				✓	✓									
		High	✓		✓						✓					
In transit	Status update slow	Low					✓		✓			✓				
		High			✓						✓	✓				
Out for deliver	Delivery failure	Low				✓			✓		✓	✓	✓	✓		
	Delivery timeout	Low					✓		✓							
		High			✓			✓ Late must compensory			✓	✓	✓			
	Return	High	✓								✓	✓	✓	✓		
Deliver	Damage	High			✓	✓		✓			✓	✓	✓		✓	
Overall	Late	Low					✓									
		High					✓	✓ Late must compensory			✓	✓	✓			
	Lost	High	✓					✓			✓	✓	✓		✓	

- The existing solutions tend to prioritize order closure, meanwhile overlook the management of late deliveries, which may be less critical but occur more frequently.

Design strategy

Differentiated by scene

- For serious exceptions, proactively reach out and fully inform;
- For slight exceptions, don't over touch to avoid disturbing or anxiety, focus on comforting users and to wait patiently.

Information presentation

- Clarity, completeness, and effectiveness. Avoid redundant.
- Maintain a balanced emotional tone and refrain from delivering cold or detached notifications.

Action guidance

- Empower users to take independent action and prevent them from feeling powerlessness "I can't do anything"
- Implement proactive error-proofing design to prevent abnormal upgrades.

Email: Clearer shipping status expression and more comprehensive delivery information.

Email holds the utmost priority as it serves as the most important touch-point in the US&UK market. However, the current design of TikTok Shop emails is still in its early stages and requires significant improvements.

1. Title exploration: better distinguish

Competitors	Before	After
Ebay 1 ORDER DELIVERED: Fresh Scented Tea Lights Cand... 2	TikTok Your order is confirmed Inbox ☆ Your package 420100369374811015300269164505 has been shipped 1 Your package will be delivered soon, please pay attention to delivery information. 2 Your package is delivered. Inbox ☆	TikTok Order confirmed: {First product name} Order confirmed for combined free shipping: {First added product name} Package shipped: {First product name} Out for delivery: {First product name} Package delivered: {First product name} {Order status} + {First product name} • Status in the beginning and simplified, for better visibility • Product name instead of tracking ID, for more intuitive
Amazon 1 Delivered: Your Amazon.com order #113-9973457-5924248 ☆		
Target An item has arrived from order #9177256390284! Inbox ☆		
1 Status in the beginning 2 Follow up by product name, which is more intuitive than long digit ID	1 Key info by the end, may not be visible in Email list 2 Not consistent title structure	

Email: Clearer shipping status expression and more comprehensive delivery information.

2. Package status: Highlight ETA and simplify the structure

Before

- 1 Wording redundancy
- 2 Most important ETA (estimated delivery time) is not highlighted
- 3 The timeline is opposite with tracking detail

Email: Clearer shipping status expression and more comprehensive delivery information.

3. Add address module: for solving DNR (Deliver not received) issues

This is particularly for buyers with multiple addresses, to prevent address confusion. TTS now don't have any representation of the buyer address on order detail, tracking and email for delivery, even though the first advice on the 'get help' page is to ‘Verify the shipping address is correct’.

Early stage: address module in the end, after product info.

Localized and Emotional

Indonesians frequently utilize emojis and punctuation marks to convey friendliness and express their emotions in a more engaging manner.

Holiday delay: Localized and emotional solution based on Chinese Spring Festival scenario.

Before

! Your package may be delayed due to the Chinese Spring Festival from Jan 21st to Jan 27th. Regular shipping will resume on Jan 28th. Thank you for your understanding and patience!

Exception reason

Explain what is this holiday in scenarios.
跨文化沟通，可增加节日相关解释

Estimated delivery time

Simplify wording and differentiate between 'before' and 'during' status.
日期文案可简化：事前、事中可做差异化表达

Comfort users

Based on the strong emotional attributes of holidays & localized copywriting preferences, add corresponding emotional expressions.
基于假期的强情感属性 & 本地化文案偏好，增加相应情感化表达

After

	Before	During
UK	! To celebrate the Chinese Spring Festival, many of our sellers will be on holiday from Jan 20-27, which may lead to an order delay for up to 7 days. Place your order in advance to avoid delay. Exception reason: Explain what is this holiday in scenarios. Estimated delivery time: Simplify wording, and use 'up to X days' instead of 'will resume on' Comfort users: lead to order in advance to avoid holiday delay.	! To celebrate the Chinese Spring Festival, many of our sellers are on holiday between Jan 20-27, which may lead to an order delay for up to 7 days. Thank you for your understanding and patience! Estimated delivery time: From 'future' to 'during'. Comfort users: lead to wait patiently.
ID	! You may expect slightly delays due to the upcoming Chinese Spring Festival starts from Jan 20. Place your order in advance to avoid delay! 🙏 Estimated delivery time: Say "slightly" as Indonesian buyers are not highly sensitive to precise delivery timing, but care about secure shopping experiences a lot. Comfort users: Emoji and punctuation for more friendly expression.	! You may expect slightly delays due to the Chinese Spring Festival from Jan 20-27. Thank you for your understanding and wish you a happy Spring Festival! 🧧🙏 Estimated delivery time: From 'future' to 'during'. Comfort users: Emoji and punctuation for more friendly expression; say celebrate the holiday as there is a significant Chinese community in Indonesia as well.

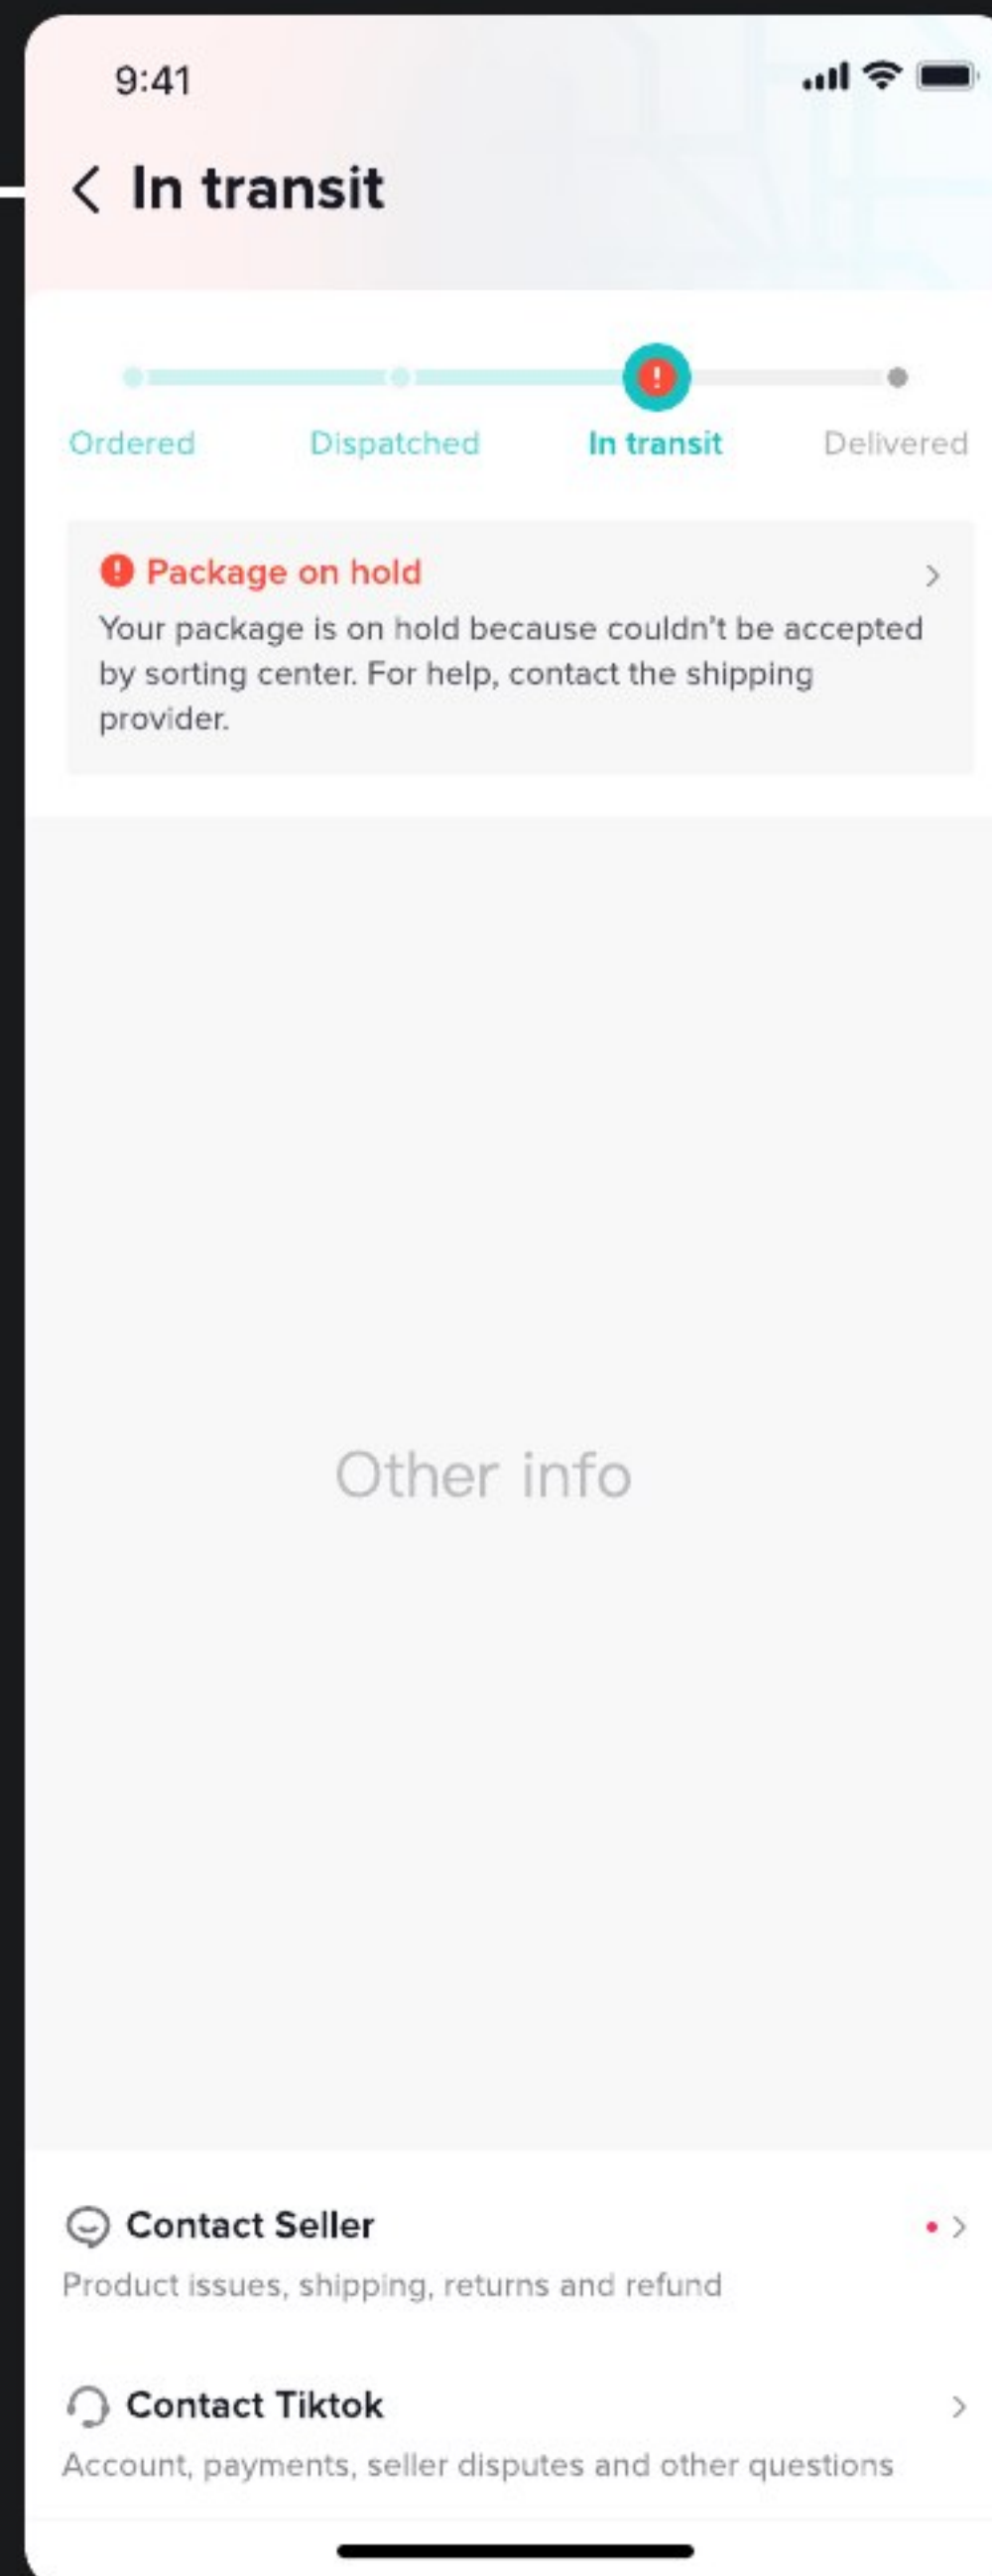

Holiday delay: Sum up 4 dimensions to fit different scenarios

Before / During			International / traditional (Is there a consensus)		
	Tense	Action		Explain what's this holiday	Emotional resonance
Before	Future Many of our sellers will be on holiday from Jan 20-27.	Order now Place your order in advance to avoid delay.	International with consensus	No Your package may be delayed due to the Easter Holiday from Jan 21 - 27.	Celebrate together Thank you for your understanding and wish you a happy holiday!
During	Ongoing Many of our sellers are on holiday between Jan 20-27.	Wait with patience Thank you for your understanding and patience!	Traditional without consensus	Yes To celebrate the Chinese Spring Festival, many of our sellers will be on holiday from Jan 20-27	Notification & ask for understanding Thank you for your understanding and patience!
Culture difference (eg: UK / Indonesia)			If related with sales		
	Precision level	Emotion & tone		High volume warning	
UK	Strict Your package may be delayed due to the Easter Holiday from Jan 21 - 27.	Official and reliable Place your order in advance to avoid delay.	Yes	We are experiencing high order volume during the Christmas Holiday promotional period.	
ID	Loose You may expect slight delays on delivery timeline.	Friendly with Emoji and punctuation Place your order in advance to avoid delay! 🙄	No	Your package may be delayed due to the Easter Holiday from Jan 21st to Jan 27th.	

Order detail

3 Better visual hierarchy

Strengthen action points for serious abnormal scenarios.

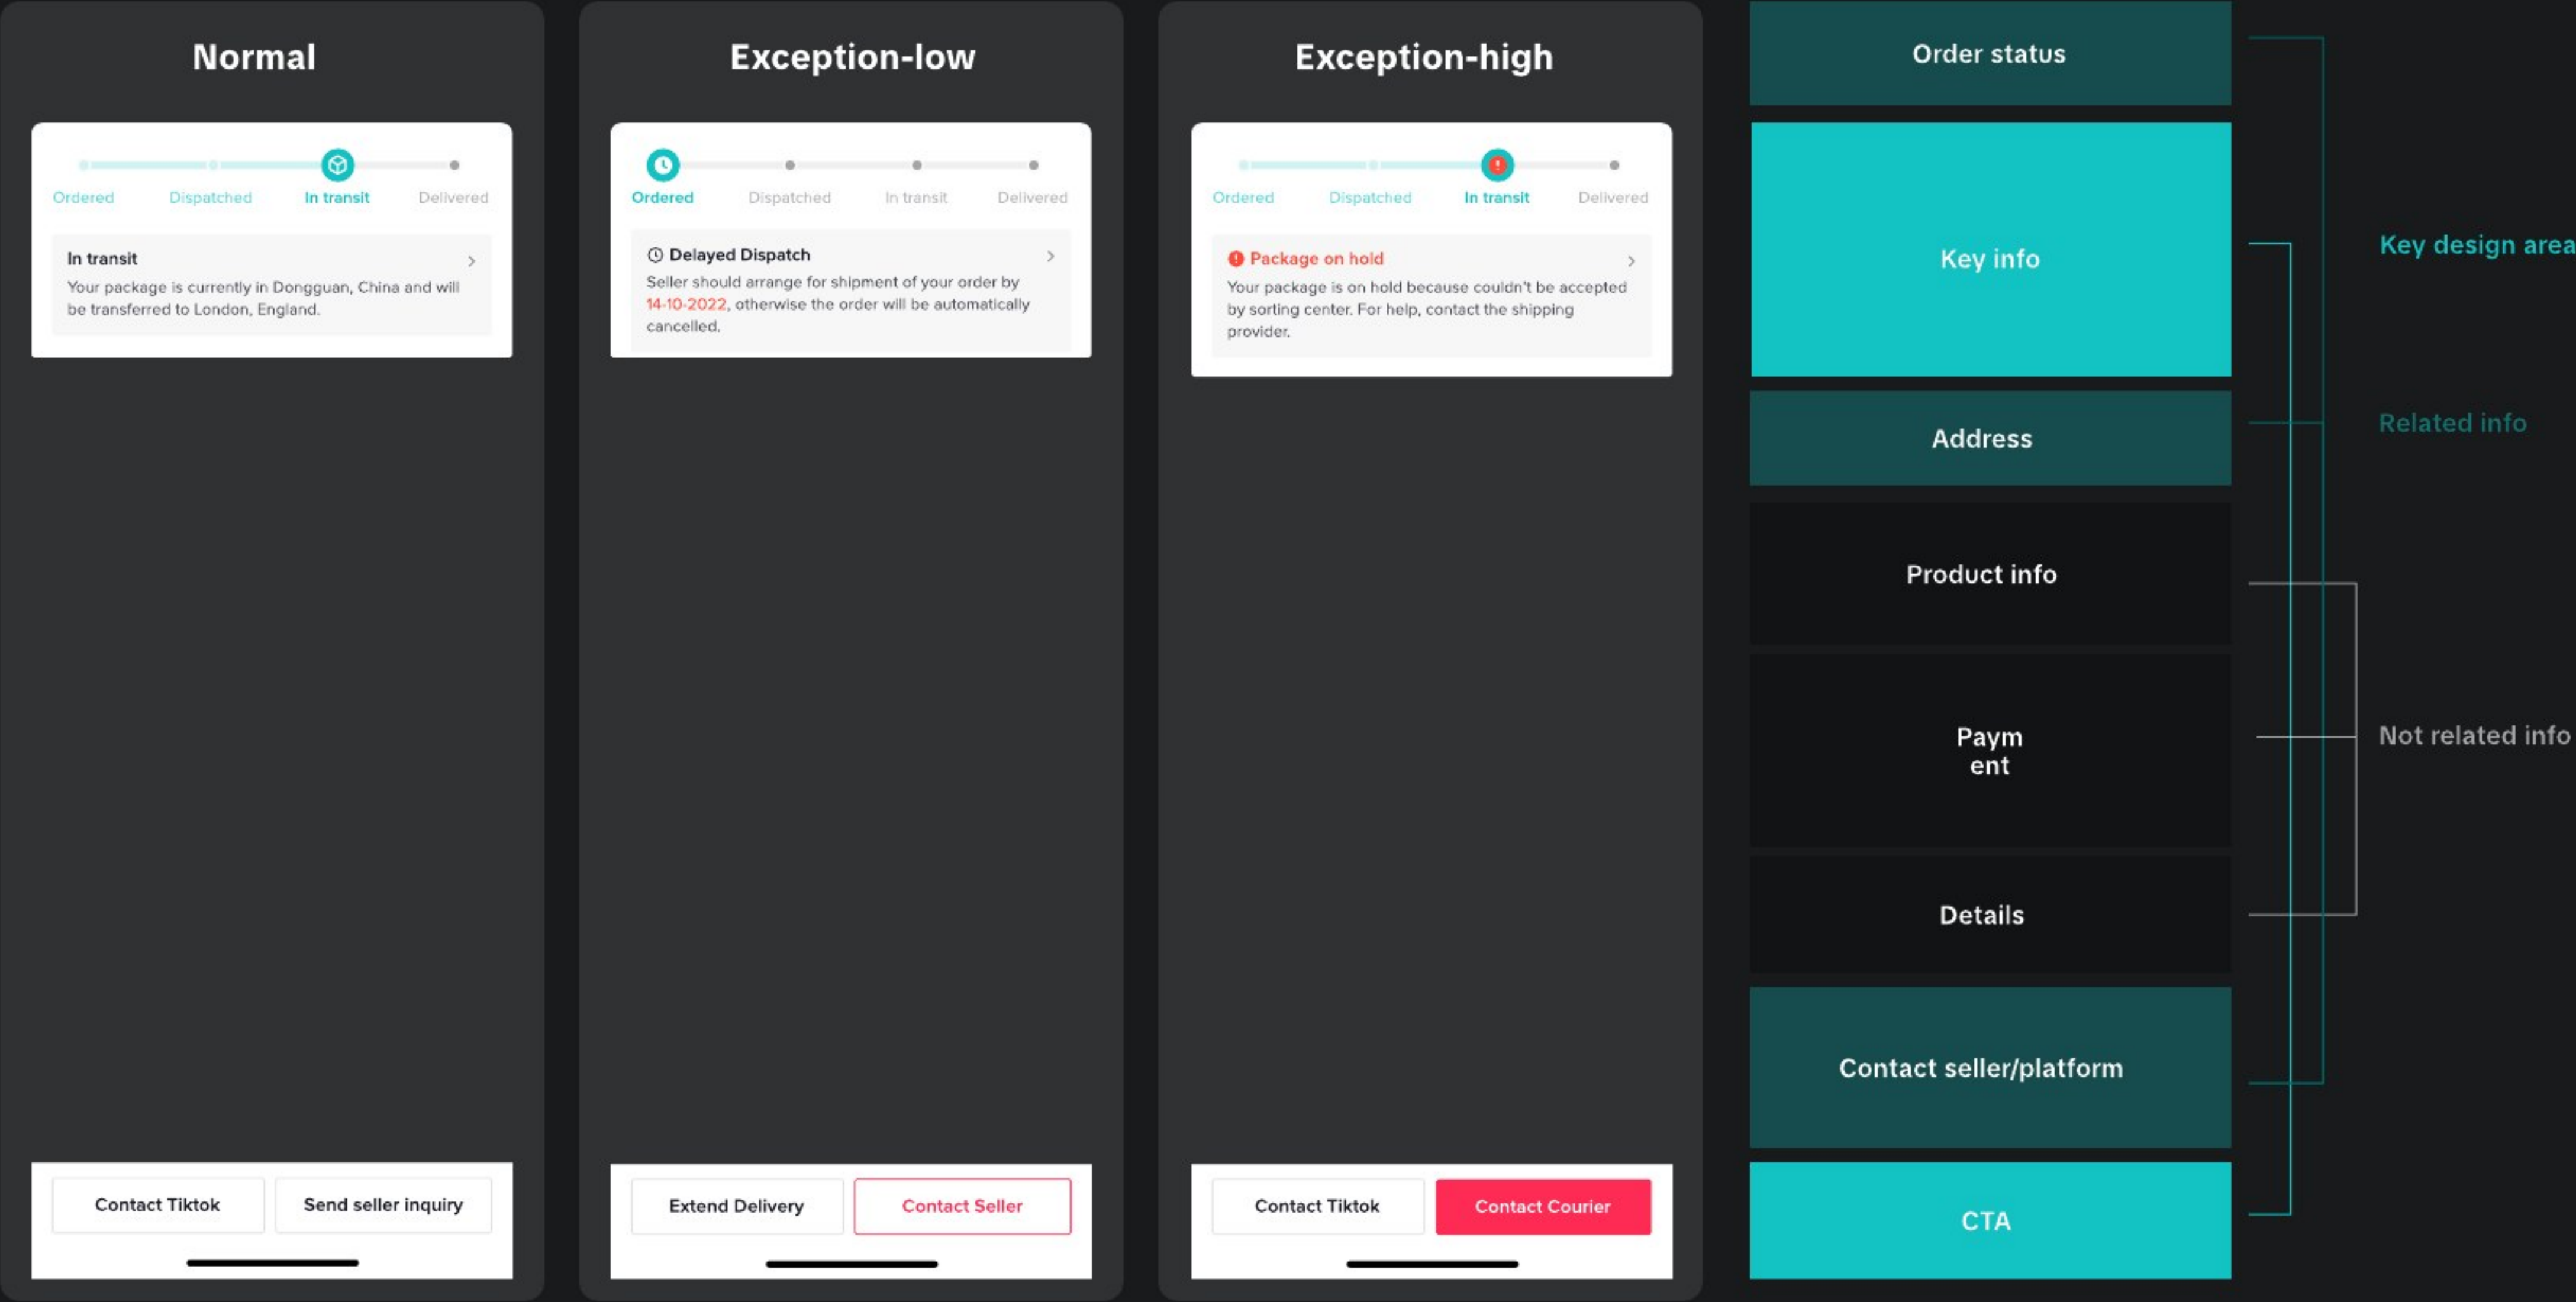

1 Grading expression

The current online design primarily focuses on addressing serious exceptions, while for minor ones, it suffices to simply "capture the user's attention." Excessive use of strong expressions can potentially induce anxiety.

2 Differentiated action point based on scenarios

The current CTA is not relevant to exceptions, and it is also not fixed at the bottom. However, our research indicates that 60% of buyers prefer to take action during exceptions, and this preference varies across different scenarios.

Order detail: comprehensive solutions that take into account various information and actions.

User research methods: **How to understand our users global wise?**

	Benefits	Limitation	Ops Cost	Financial Cost
Fieldtrip visits	- Vivid and intuitive - Can help identify and discover new problems	High costs and cannot be arranged frequently	High	High
Interview	- Reach users directly - Facilitates in-depth exploration of directional issues	Find the right persona and recruit under legal compliance	Mid	Mid
Survey	- Quantitative results with in-depth research and high reliability - Extensive outreach and facilitate crowd curation	Better suited for hypothesis testing rather than exploratory research	High	/
Competitor walkthrough	- Easy to start and high flexibility - Detailed walkthrough includes both digital and physical experience	- Not first person user perspective - Qualitative conclusion with small sample	Mid	Low
NPS module in APP	Long-term monitoring with rich samples and quantitative results	Mostly for existing issues, neither discover hew issues nor in-depth reasons behind.	Low	/

Fieldtrips

Includes seller visits, warehouse visits, consumer interview and ordering experience all in one.

End: Thank you for taking part in today's interview. If you encounter any future UX issues, please feel free to reach out to us through Lark. We are here to assist you.

Volunteers needed for online shopping experience!

What we are looking for

- Live in Los Angeles, San Francisco, San Jose or New York
- Have shopped online in recent one month
- Available for a 30mins offline interview during Aug 13-30

What you will do

- Place an order on a designated platform, you can choose any product under \$20 and keep it as a gift;
- Participate in an 30 mins interview, ideally offline. As a token of our appreciation, a Walmart gift card will be provided afterwards.

If you are interested, please scan the QR code to complete a brief 3-minute survey. We will be in touch with you shortly!

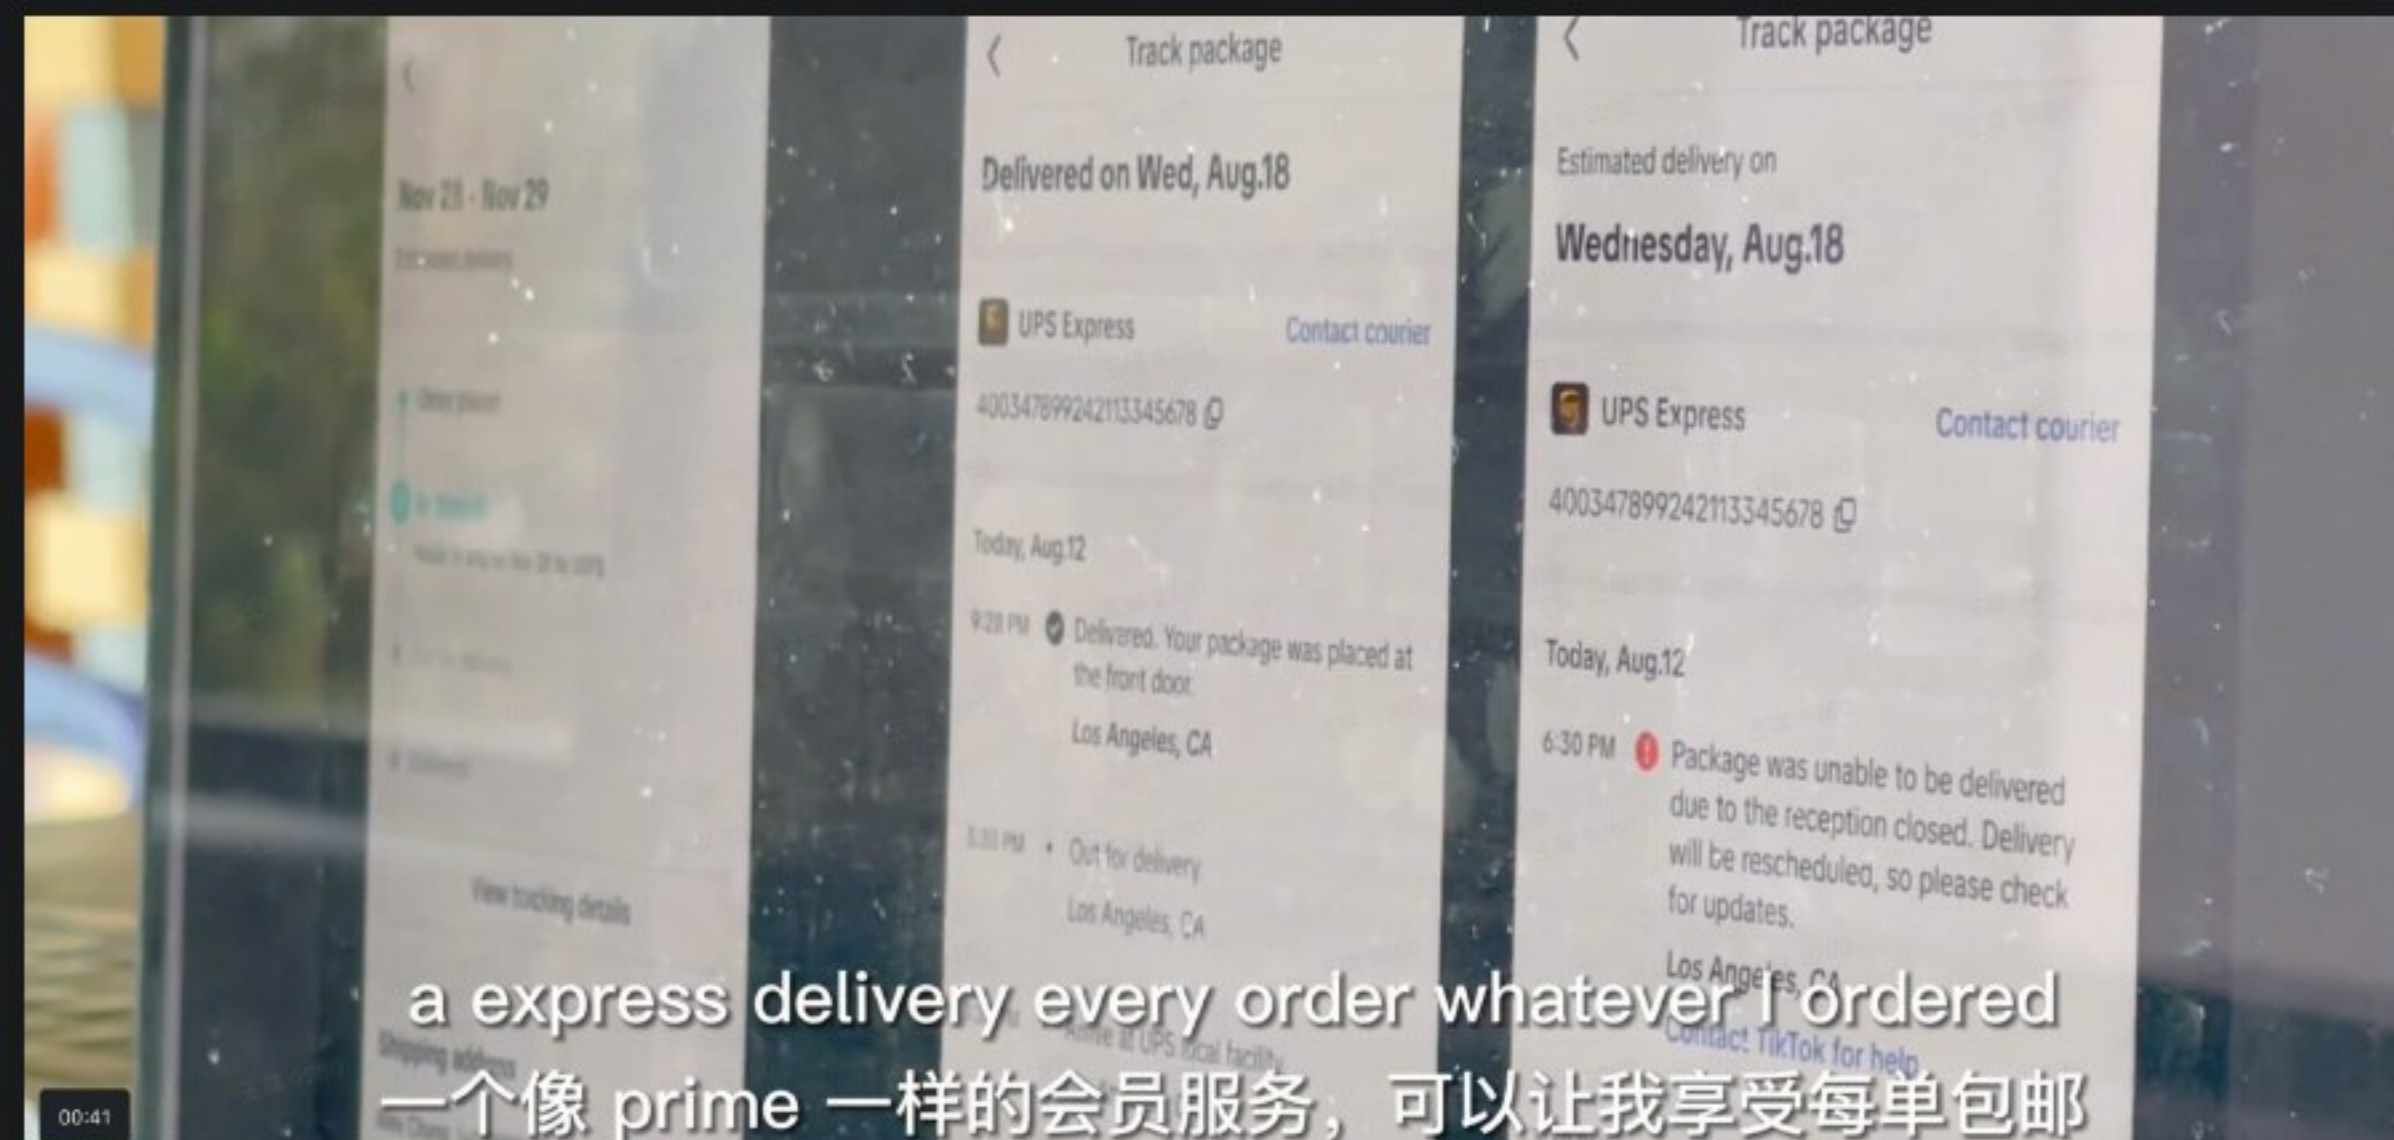

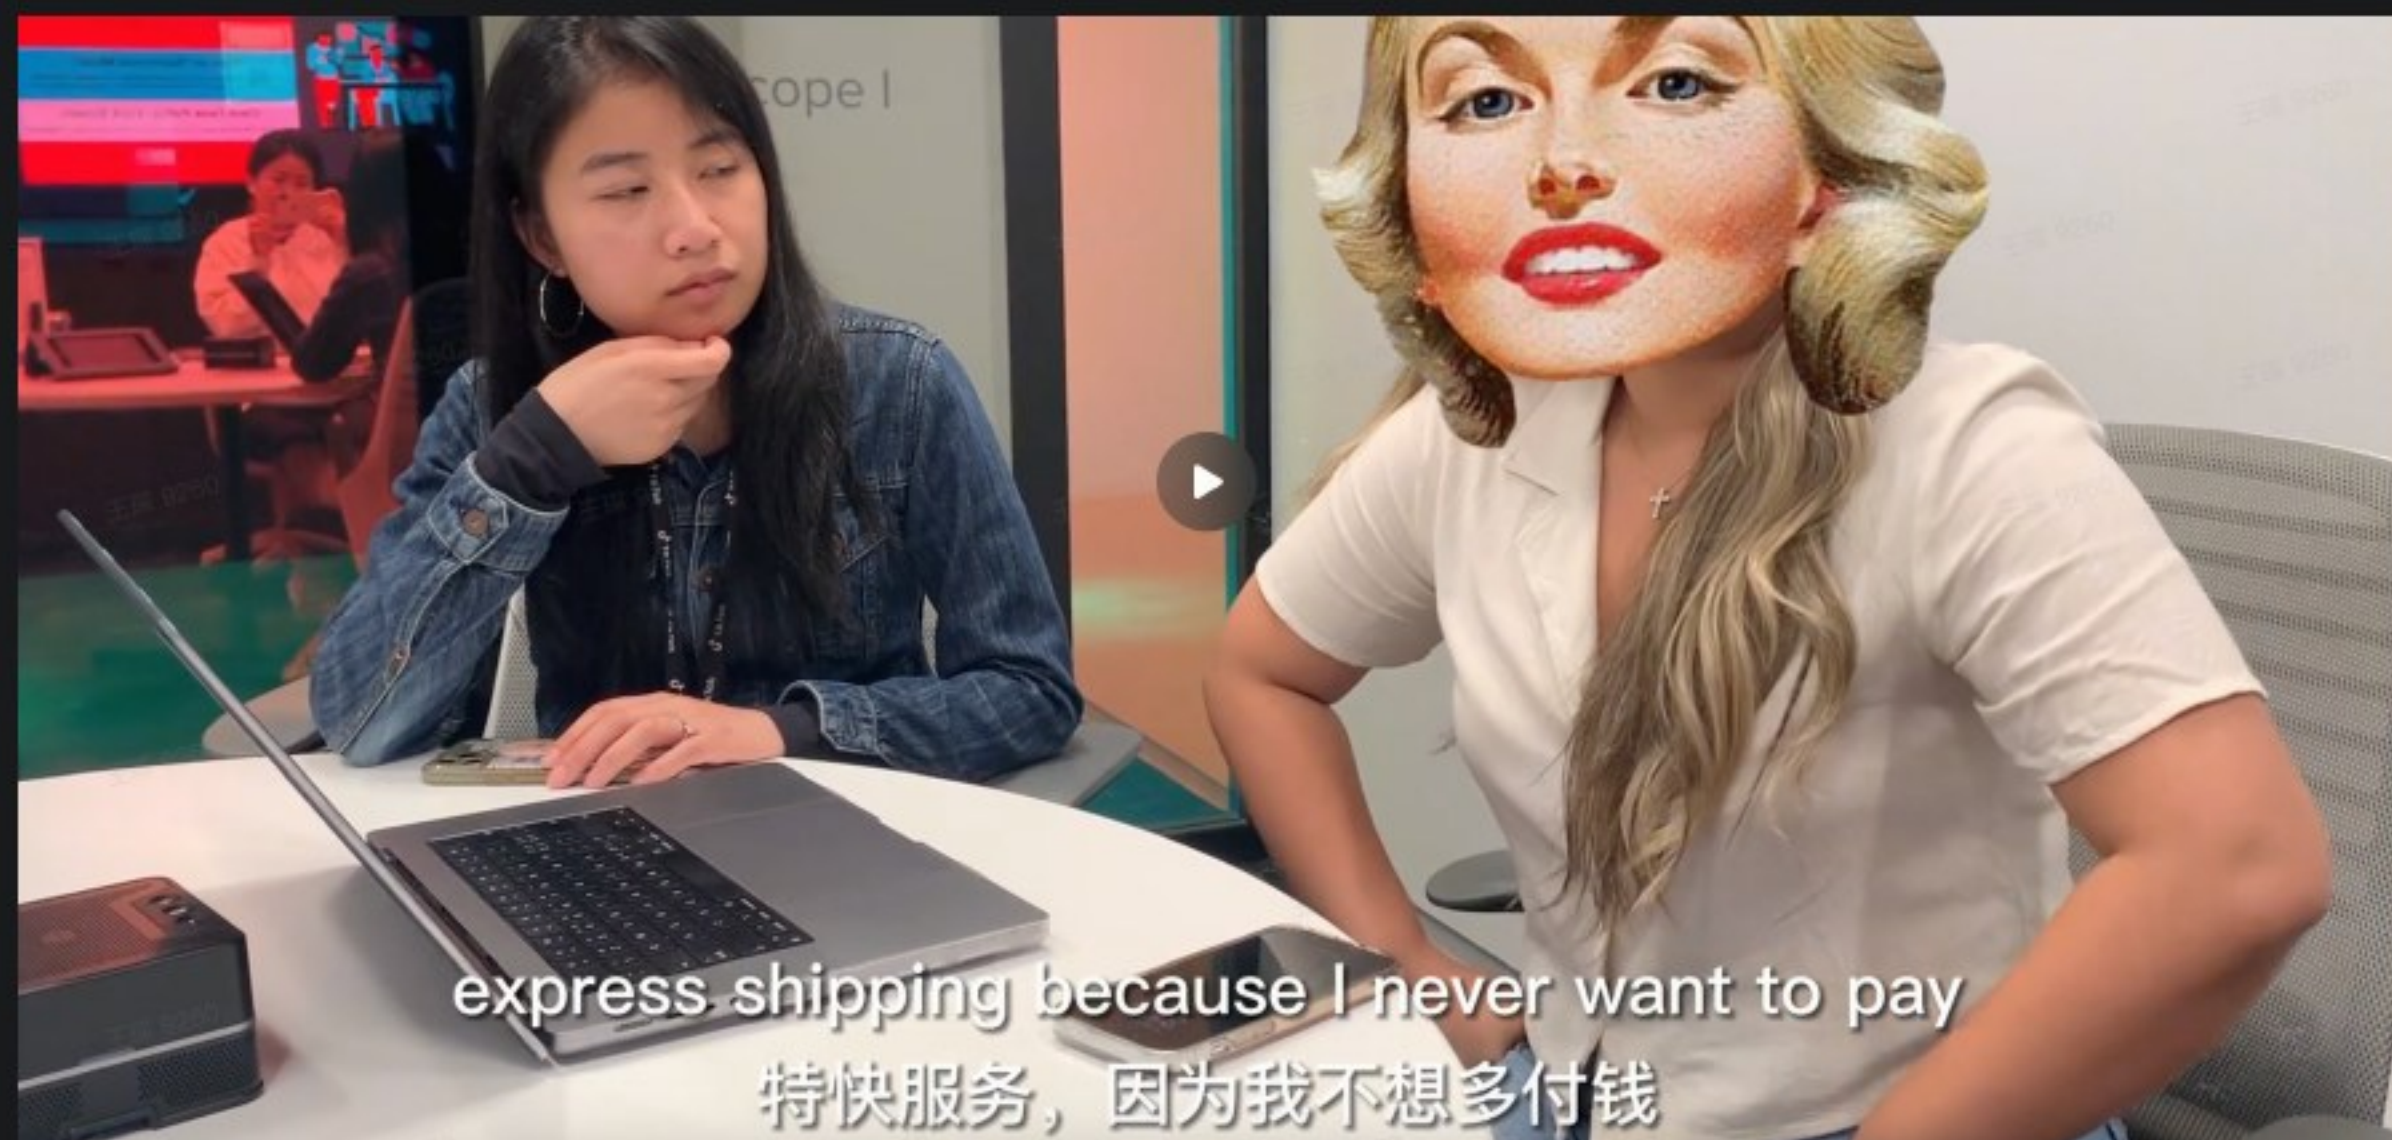

Please be informed that the interview will be recorded solely for internal use and no personal information will be disclosed.

EXPERIENCE FRONTLINE

How is your **logistics experience** when ordering online?

Competitor walkthrough

1. Identify research topic

E.g: Last mile

2. Select competitors

Typical players in target market

3. Make real orders

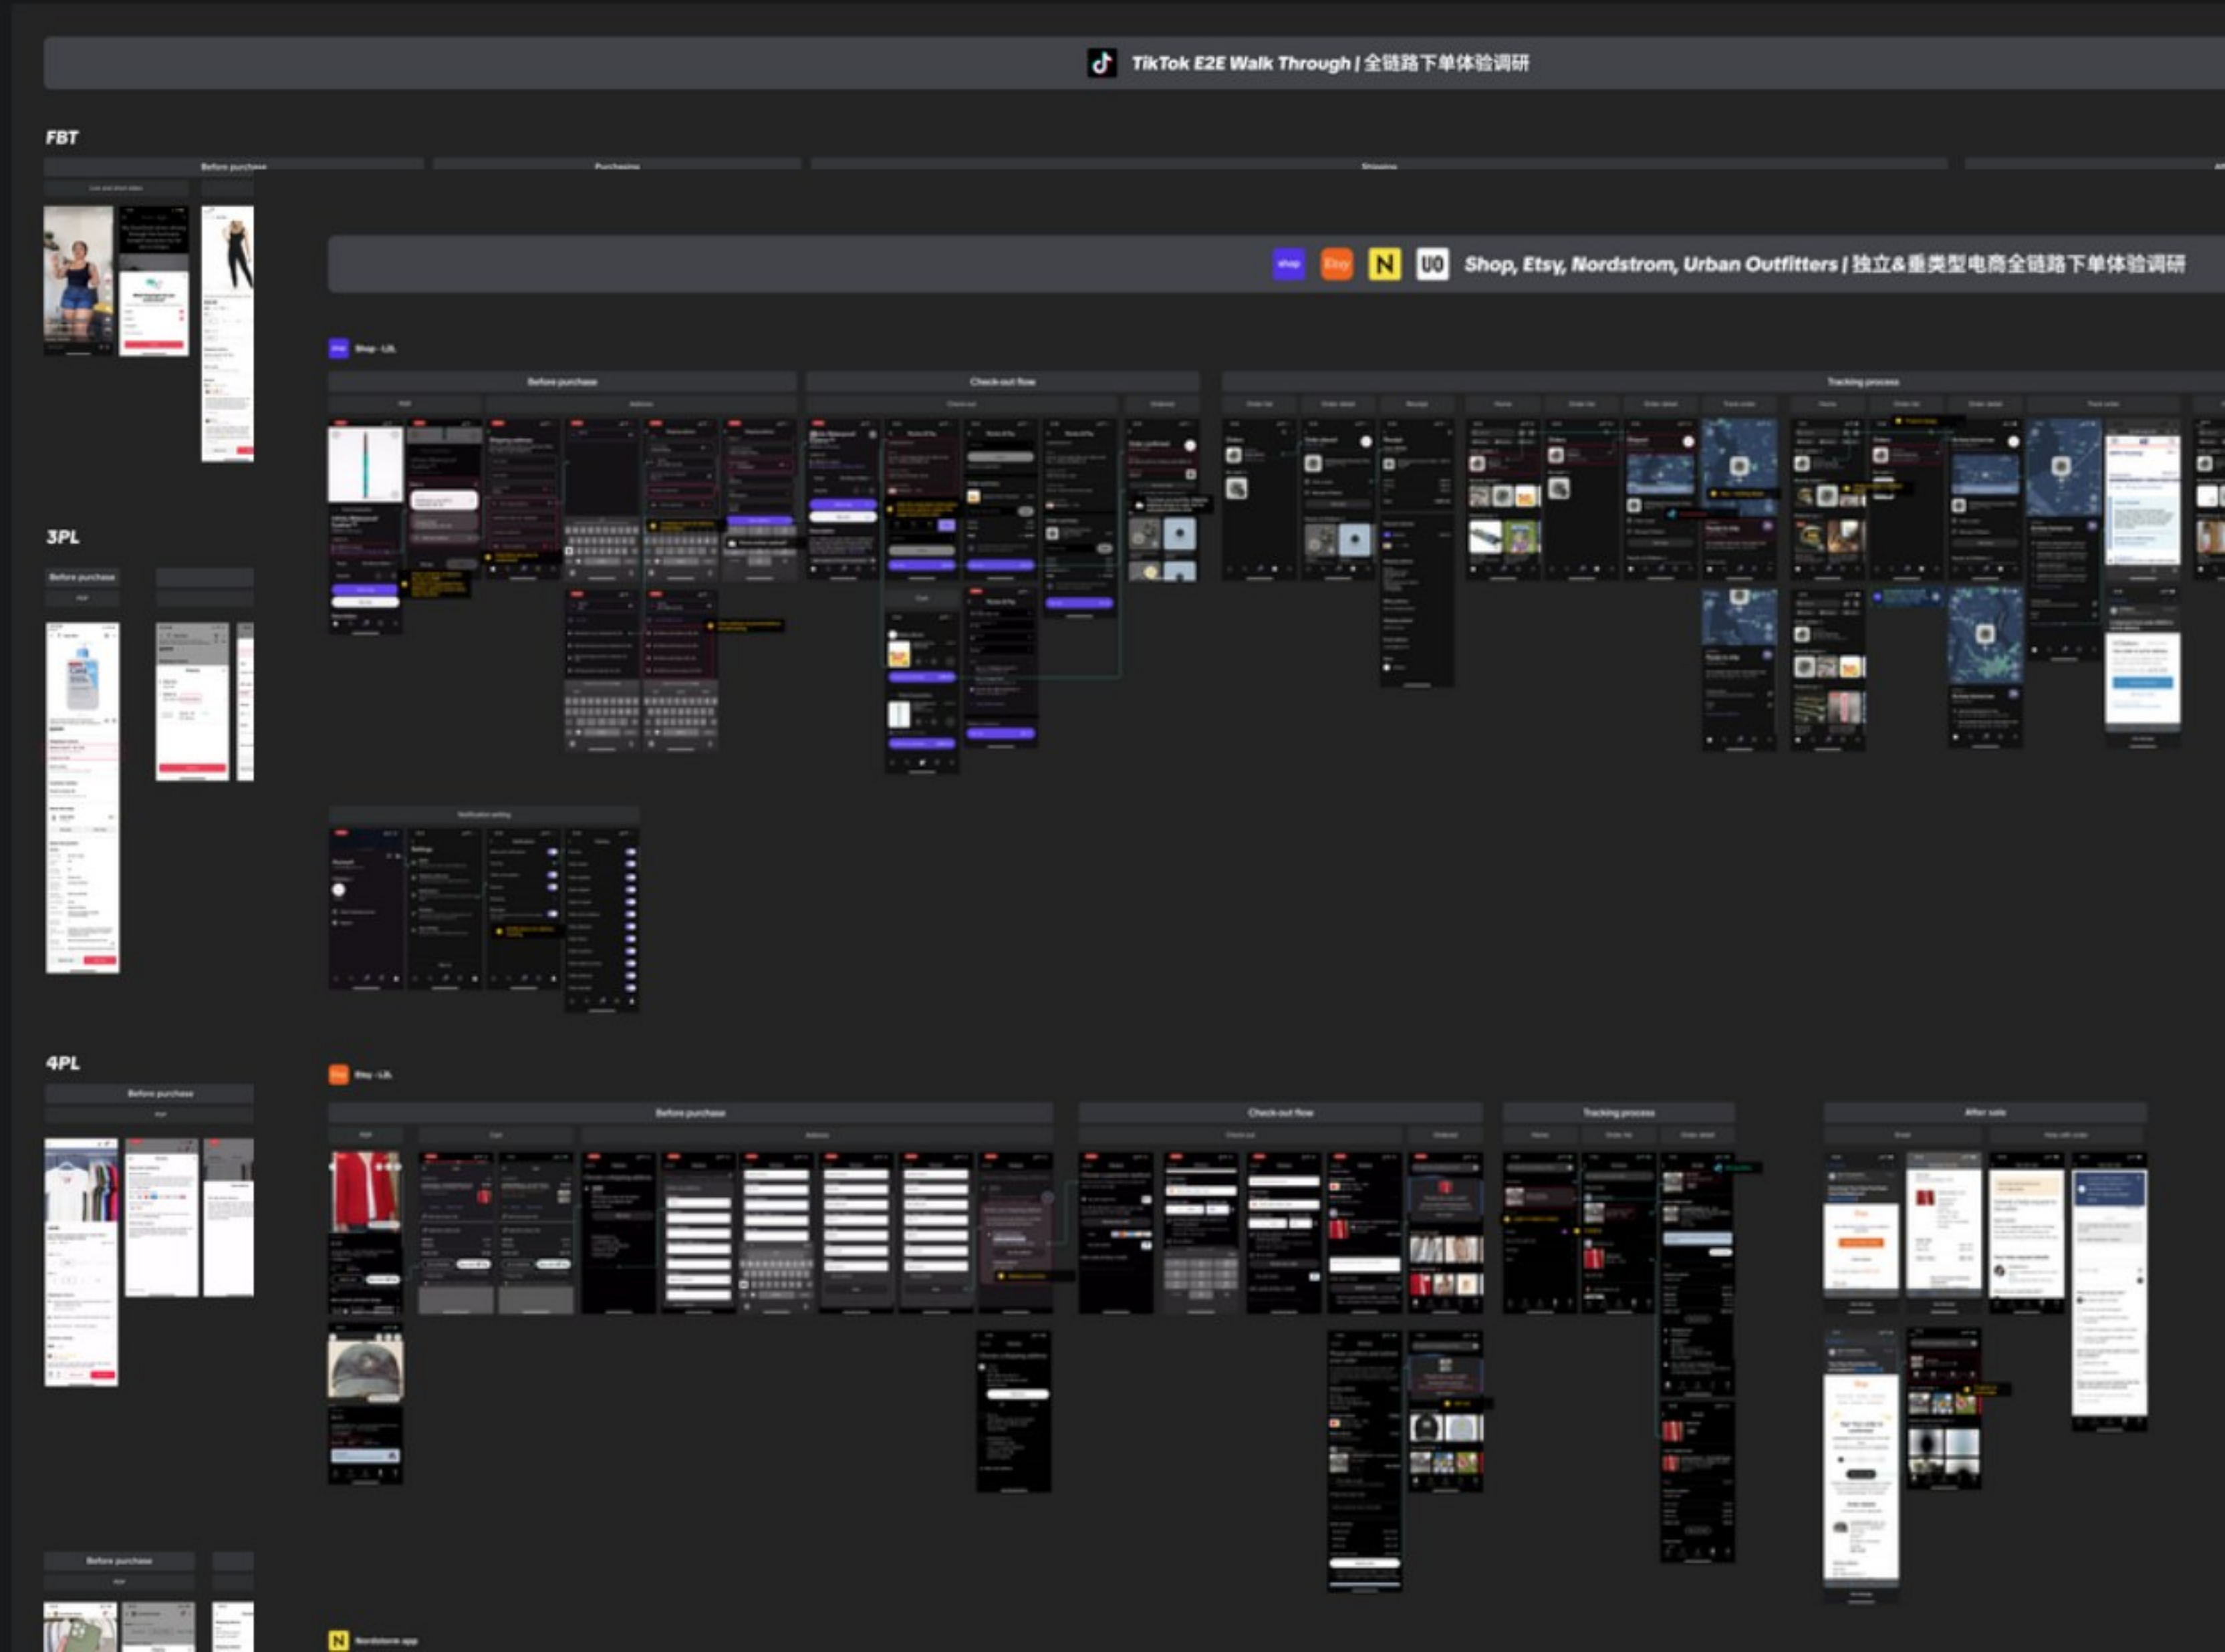

TTS + competitors

4. Go through E2E experience

Find our own UX blockers and get insights from competitors

5. Sum up with conclusions

Follow up with design proposals and share with cross-function teams.

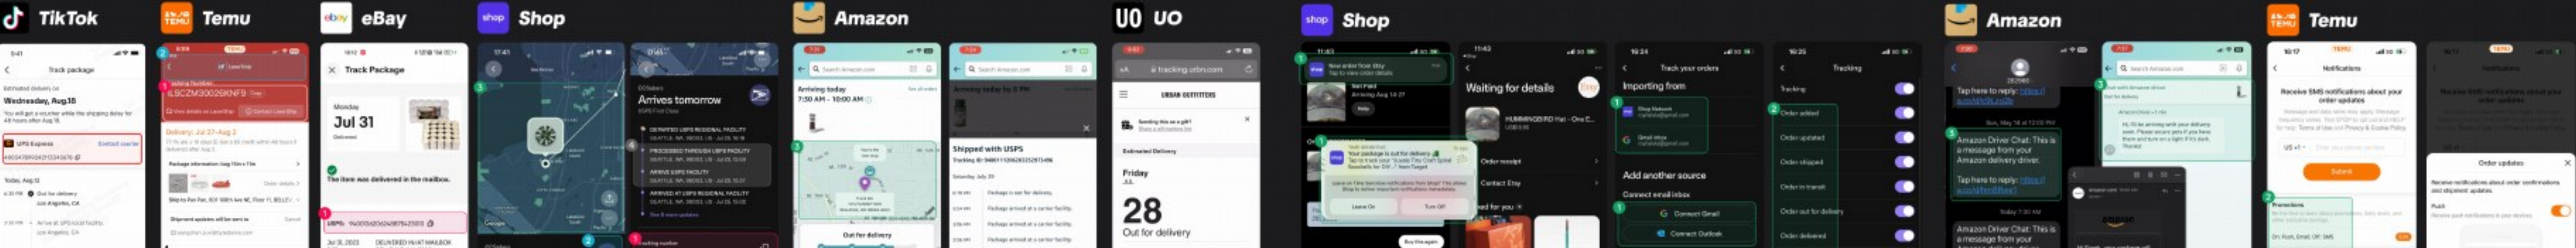

Competitor walkthrough

US Logistics Experience Design Focus

	Consumer		Merchant	
Business Goal	Increase Order Volume	Lower CPO. Higher LSAT	Shorten Leadtime	Increase 4PL/FBT Penetration
Design Focus	CO-CREATE EDT 时效	Tracking 轨迹	CO-CREATE Fulfillment UX 商家履约体验	Value Add 平台仓发服务价值塑造
Key Actions	Before purchase: enhance EDT display details on PDP, nudge decision-making 优化购前时效表达，助推下单决策	Capability building: enhance product design for combined shipping and safe place, etc. 针对合包、妥投信息等场景完善轨迹基建	Order processing: improve detailed design to meet order handling demand 发货履约精细化设计，满足商家实操需求	Capability building: add services like bundle & kitting and package branding 打造预包、组套、品牌个性化包装等增值服务
	After purchase: notify customers regarding EDT change in time 购后时效变化及时触达通知用户	Better notification: improve the overall UX of email, push & inbox 邮件等高频触达场景设计优化	Seller education: enhance guidelines on label printing, packaging and policy awareness 加强规范宣导&政策更新感知	Product UX: improve inbound process and inventory health alert 入库流程优化、库存健康预警等体验优化

1 Logistics official providers' service 物流商官方服务透传 UX 1. Users do shopping on independent websites, they have a habit of checking the tracking information on the official websites of logistics companies. Competitors also provide users with relevant information about the logistics companies as secondary information on the tracking details page. 用户习惯于独立站购物场景，因此有习惯去物流商官网看轨迹。竞品在原始物流商未透传造成用户，作为物流详情页的次要信息。 UI 2. In terms of UI expression, various competitors choose to use logos of logistics companies. In terms of expression, Temu uses the overall logistics brand color, Shop only uses the logistics company logo, and UO removes the logistics company color to strengthen its own platform brand. UI表达上，各竞品选择用logo增强物流表达，表达和店上temu的整体使用物流品牌色。shop只取物流商logo，UO去掉物流品牌色强化自己平台品牌。 Function 3. Map design for tracking page, with a more emotionally designed, allows users to have a more intuitive perception of the estimated delivery time and current progress. 地图功能，更情感化的轨迹设计，让用户可以直观的感知到预计送达的时间和物流进度。 Comments 4. The other Apps all use providers' official contents on the tracking details, except Amazon. FBM use their own contents on details. 竞品在轨迹页面上均使用物流官方提供的描述，除亚马逊使用平台定制描述了一组逻辑。	2 Delivery process reach to buyers 物流进度触达消费者 Function 1. Shop can query shopping on different platforms through email and push the progress to users. Alternatively, it can link other accounts to push delivery progress to users. shop能够通过邮箱查询到不同平台的购物，并直接推送给用户。或者可以绑定其他账户关联打通从而推送配送进度给用户。 Function 2. The notification type selection allows users to choose the type of notification they need with Temu. Shop can even select which delivery milestones to push messages to users. 推送通知类型选择，Temu可以让用户选择需要哪一类的通知。Shop甚至可以选则配送的哪些节点推送给用户推送消息。 Function 3. Amazon uses an internal chat tool to allow delivery drivers to directly communicate with customers. This is a feasible approach in situations where users in the European and American markets prefer not to be contacted via phone calls. 亚马逊使用了站内聊天工具让快递员可以和用户直接沟通。这个在欧美和欧洲用户和快递员距离高的场景也是一个可行做法。

Key Insights

Batch Shipping

More flexible filtering&sorting options, and corresponding order quantity display

More integrated and simplified operation process: less page jumps and operations

Logistics Costs

Expensive shipping fee

Clear expression about shipping fee

Seller Tutorials & Help

Provide instructions and samples for complex scenarios

Batch Printing

Consider how to continue batch printing task smoothly after interruptions

Optimize label design to save paper and ink

Support label customization to meet different sellers' needs

Logistics Service Providers and Service Quality

Provide more service providers

Give the option for seller/consumer to choose service providers

Fast responding and solving logistics problems

WHAT IS A TEAM LEADER

LEADERSHIP

Comprehensive and extensive knowledge

Possess specialized expertise in specific areas while also offering guidance across multiple design dimensions.

Comprehensive viewpoint

Accountable for the holistic expertise and collaborate with cross-functional network to accomplish objectives.

Innovation

Recognize potential opportunities, have the courage to invest, and take proactive steps to achieve results.

Method summary

Combine various scenarios and consolidate with a reusable methodology.

MANAGEMENT

Impact

Become a model of professionalism first, and then positively influence team members.

Set & Achieve goals

Assist team members in establishing attainable goals with clear metrics and inspire and motivate them to progress.

Communication

Acknowledge and support individual emotions, and facilitate open and effective communication.
